No employee, agent, servant, or subcontractor of the Contractor shall be deemed to be an employee, agent, or servant of the County because of the performance of any services or work under this Agreement. The Contractor warrants and guarantees to the County that all work, equipment, and materials furnished under the Agreement are free from defects in workmanship and materials for a period of one year after final acceptance by the County. The Contractor further warrants and guarantees that the plans and specifications incorporated herein are free of fault and defect sufficient for Contractor to warrant the finished product after completion date. Should the Contractor fail to proceed promptly in accordance with this guarantee, the County may have such work performed at the expense of the Contractor. This section does not relieve the Contractor from liability for defects that become known after one year.

11. TERMINATION:

- 11.1. For Cause: If, through any cause, the Contractor fails to fulfill its obligations under this Agreement in a timely and proper manner, or if the Contractor violates any of the covenants, conditions, or stipulations of this Agreement, the County shall thereupon have the right to immediately terminate this Agreement, upon giving written notice to the Contractor of such termination and specifying the effective date thereof.
- 11.2. For Convenience: The County may terminate this Agreement at any time by giving written notice as specified herein to the other party, which notice shall be

given at least thirty (30) days prior to the effective date of the termination. If this Agreement is terminated by the County, the Contractor will be paid an amount that bears the same ratio to the total compensation as the services actually performed bear to the total services the Contractor was to perform under this Agreement, less payments previously made to the Contractor under this Agreement.

12. MUTUAL UNDERSTANDINGS:

- 12.1. Jurisdiction and Venue: The laws of the State of Colorado shall govern as to the interpretation, validity, and effect of this Agreement. The parties agree that jurisdiction and venue for any disputes arising under this Agreement shall be with Adams County, Colorado.

- 12.6. Waiver: Waiver of strict performance or the breach of any provision of this Agreement shall not be deemed a waiver, nor shall it prejudice the waiving party's right to require strict performance of the same provision, or any other

provision in the future, unless such waiver has rendered future performance commercially impossible.

12.7. Force Majeure: Neither party shall be liable for any delay or failure to perform its obligations hereunder to the extent that such delay or failure is caused by a force or event beyond the control of such party including, without limitation, war, embargoes, strikes, governmental restrictions, riots, fires, floods, earthquakes, or other acts of God.

ATTACHMENT I to Appendix C

Policy Regarding Intellectual Property Arising Out of Foundation Grants

Introduction

Foundation grants often result in tangible products, such as reports, papers, research, software, data sets, curriculum, books, film or television documentaries, or radio programs ("Grant Work Product"). This Policy articulates the principles guiding the Foundation's approach to the ownership and use of Grant Work Product. It addresses specifically the ownership, use, copyright to, distribution and licensing of the Grant Work Product arising from project grants by balancing the interests of the Foundation with the interests of the grantees and other interested parties.

Recipients of general operating support grants are expected to have policies in place reasonably consistent with the underlying philosophy and principles reflected in this Policy.

The Foundation is cognizant that fast-evolving technological advances are impacting the manner and method by which knowledge in whatever form can be protected and distributed and the Foundation will evaluate this policy in light of this understanding. The attached glossary defines certain underscored terms used in this Policy. A Guidance Memorandum that provides further detail on the Foundation's approach to specific issues accompanies this policy and will be revised from time to time as appropriate.

Policy

The Foundation's policy is to ensure that use of the Grant Work Product furthers charitable purposes and benefits the public. To that end, the Foundation seeks prompt and broad dissemination or availability of the Grant Work Product at minimal cost to the public or, when justified, at a reasonable price. Distribution at a reasonable price may be justified when integral to the business plan and sustainability of a charitable organization or when the Foundation is satisfied that net revenues derived from the distribution will be used for charitable purposes.

- Grant Work Product should, whenever feasible, be licensed under a Creative Commons license appropriate for the circumstances or other similar scheme that provides for wide distribution or access to the public.
- Software created with grant funds should be ordinarily licensed under an open source license.
- The Foundation also expects openness in research and freedom of access to research results and, when feasible, to the underlying data by persons with a serious interest in the research. This means that grant-funded impact studies should generally be registered in a field-appropriate registry, preferably before data are collected or at least before statistical analyses are performed.

The Foundation recognizes there may be circumstances where limited or delayed dissemination of Grant Work Product, delayed or non-registration of impact studies, or limited or delayed access to data may be appropriate to protect legitimate interests of the grantee, other funders, principal investigators or participants in research studies. Such circumstances will be evaluated on a case-by-case basis.

We will apply these same general principles to our contract-funded evaluation work and make the relevant information available under our Policy on Information Sharing.

Ownership of intellectual property rights (including copyright and patent rights) should not be used to limit or deny access to the Grant Work Product, to result in exclusive use of such Grant Work Product, or to create revenue that is not used substantially for charitable purposes. Copyright to or patent rights in the Grant Work Product will ordinarily remain with the grantee, but the Foundation will be granted a no-cost assignable license to use or publish the Grant Work Product consistent with this Policy. The Foundation may forego or limit the requirement of a license if the Foundation is reasonably satisfied that other appropriate arrangements will be implemented that will assure the goals of this Policy.

In all instances, the Foundation will agree to suitable terms at the time a grant is made based on the facts to ensure the objectives of the Policy are met while respecting appropriate interests of others.

This Policy was initially adopted September 18, 2008. It was last revised on September 10, 2015 and applies to grants awarded after that date.

Glossary

Creative Commons License: A license that allows creators of intellectual property to retain copyright while allowing others to copy, distribute, and make some uses of their work — at least non-commercially. <http://creativecommons.org/licenses/>

Data: All materials created during the research process including raw data and metadata required to replicate and assess the trustworthiness of reported findings in their entirety.

Impact Study: A study that investigates how an intervention affects outcomes based on a model of cause and effect. It requires a credible counterfactual (typically, a control group or a comparison group) of what those outcomes would have been in the absence of the intervention. An impact study must control for factors other than the intervention that might account for the observed change.

Open Source License: A license that allows software or other products to be used, modified, and shared under defined terms and conditions.

Registry: An access point for collaborators, other scholars, students, and the interested public that provides links to data sets, survey instruments, impact studies, and experimental protocols. The purpose is to enhance the transparency and quality of research/evaluations studies funded by foundations.

Research: The general field of disciplined investigation, covering the humanities, the sciences, jurisprudence, evaluation and so on.

*ATTEMPTS TO INFLUENCE LEGISLATION
BY MACARTHUR FOUNDATION GRANTEES*

Under United States law, MacArthur Foundation grant monies may not be used to pay for attempts to influence legislation, unless they qualify under certain specific exceptions. (These laws do not affect how grantees may spend money received from other sources.) This paper will generally describe what activities are regarded as attempts to influence legislation and some of the exceptions available. Also, attached is a chart describing some permissible and prohibited public policy activities.

Lobbying

Attempts to influence legislation, commonly known as lobbying, may be of two types, direct or indirect:

Direct Lobbying

Direct lobbying refers to certain communications directly with government personnel who are involved in the legislative process. They may be legislators or employees of legislative bodies, or other government personnel who participate in the formulation of the legislation concerned.

A communication with these government personnel will be lobbying only if it both refers to specific legislation and indicates a view on that legislation.

Indirect Lobbying

Indirect (or "grass roots") lobbying refers to communications with members of the general public. Certain "public relations" or educational activities may constitute indirect lobbying, and others will not. Indirect lobbying communications include only communications that (1) refer to specific legislation, (2) indicate a view on the legislation, and (3) encourage the recipient of the communication to take action with respect to the legislation.

Specific Legislation

"Specific legislation" includes both legislation that has already been introduced in a legislative body and a specific legislative proposal.

Legislation

Legislation refers only to action by a legislative body -- such as a congress, senate, chamber of deputies, house of representatives, state legislature, local council or municipal chamber of representatives -- or by the public in a referendum or similar

procedure. Legislation of the United States or any other country or of any local government is included.

Legislation also includes proposed treaties required to be submitted by the President of the United States to the Senate for its advice and consent from the time the President's representative begins to negotiate his position with the prospective parties to the proposed treaties.

Action by an executive or by a judicial or administrative body does not constitute legislation, so attempts to influence such action do not constitute lobbying.

Encouraging Recipient to Take Action

A communication may encourage the recipient to take action with respect to legislation, and therefore meet the third test for indirect lobbying, in any one of the following four ways:

1. It may state that the recipient should contact a legislator (or other government official or employee who may be involved in the legislation).
2. It may state the address, telephone number, or similar information of a legislator or an employee of a legislative body.
3. It may provide a petition, tear-off postcard, or similar materials for the recipient to send to a legislator or other government official or employee.
4. It may specifically identify one or more legislators who will vote as:
 - a. opposing the communication's view with respect to the legislation,
 - b. undecided about the legislation,
 - c. the recipient's legislative representative, or
 - d. a member of the legislative committee that will consider the legislation.

Exceptions

There are a few specific exceptions from prohibited lobbying. The most important of these for MacArthur Foundation grantees are the exception for examinations and discussions of broad social, economic, and similar problems and the exception for nonpartisan analysis, study, or research.

A communication regarding broad social, economic, and similar problems will not constitute lobbying, even if the problems discussed are of a type with

which government would be expected to deal eventually. Accordingly, it is permissible to speak to legislators or the general public about problems that the legislature should address. These communications may not, however, discuss the merits of a specific legislative proposal or directly encourage recipients to take action with respect to the legislation.

Nonpartisan analysis, study, or research means an independent or objective exposition of a particular subject matter. It may advocate a particular position or viewpoint, so long as there is a full and fair discussion of the pertinent facts, which is sufficient to enable an individual to form an independent opinion or conclusion.

The results of nonpartisan analysis, study, or research may indicate a view on specific legislation, and they may be communicated to a legislator or government official or employee involved in the legislative process. They may not, however, be communicated to members of the general public with a direct encouragement to the recipient to take action with respect to the legislation.

A grantee may not use the nonpartisan analysis, study, or research exception, such as by omitting the direct encouragement to take action, and then later use the

communication for lobbying purposes. If it does, and if the grantee's primary purpose in preparing the original communication was for use in lobbying, the amounts spent to prepare the original communication will be treated as funds used for lobbying.

Related Issues

The use of any MacArthur Foundation grant monies to participate in any political campaign on behalf of or in opposition to any candidate for public office is also prohibited by United States law. This applies to elections both inside and outside the United States.

Also, no MacArthur Foundation grant monies may be used to make any payments that would be illegal under local law, such as to offer money to a public official to perform an official action or to omit or to delay an official action.

Questions

If you have any questions regarding the rules discussed in this memorandum, or if you would like further information please contact the Office of the General Counsel, at the John D. and Catherine T. MacArthur Foundation, 140 South Dearborn Street, Chicago, Illinois 60603-5285, U.S.A.; telephone (312) 726-8000.
