ADAMS COUNTY
MASTER PROFESSIONAL SERVICE AGREEMENT
ON-CALL JUSTICE ARCHITECTURE SERVICES

THIS AGREEMENT ("Agreement") is made this 7 day of May 2019, by and between the Adams County Board of County Commissioners, located at 4430 South Adams County Parkway, Brighton, Colorado 80601, hereinafter referred to as the "County," and DLR Group, Inc., located at 1401 Lawrence Street, Suite 100, Denver, Colorado 80202, hereinafter referred to as the "Consultant." The County and the Consultant may be collectively referred to herein as the "Parties."

The County and the Consultant, for the consideration herein set forth, agree as follows:

1. SERVICES OF THE CONSULTANT:

1.1. All work shall be in accordance with the attached RFP 2019.307 and the Consultant's response to the RFP 2019.307 attached hereto as Exhibit A, and incorporated herein by reference. Should there be any discrepancy between Exhibit A and this Agreement the terms and conditions of this Agreement shall prevail.

1.2. Emergency Services: In the event the Adams County Board of County Commissioners declares an emergency, the County may request additional services (of the type described in this Agreement or otherwise within the expertise of the Consultant) to be performed by the Consultant. If the County requests such additional services, the Consultant shall provide such services in a timely fashion given the nature of the emergency, pursuant to the terms of this Agreement. Unless otherwise agreed to in writing by the parties, the Consultant shall bill for such services at the rates provided for in this Agreement.

2. RESPONSIBILITIES OF THE COUNTY: The County shall provide information as necessary or requested by the Consultant to enable the Consultant's performance under this Agreement.

3. TERM:

3.1. Term of Agreement: The Term of this Agreement shall be for three (3) years for the date of execution, unless terminated as specified elsewhere herein.

3.2. Renewal Option: The County, at its sole option, may offer to renew this Agreement as necessary for up to two, one year renewals providing satisfactory service is given and all terms and conditions of this Agreement have been fulfilled. Such renewals must be mutually agreed upon in writing by the County and the Consultant.

4. PAYMENT AND FEE SCHEDULE: The County shall pay the Consultant for services furnished under this Agreement, and the Consultant shall accept as full payment for
those services, on a per task order basis based on the hourly rates attached as Exhibit B in this agreement.

4.1. Payment pursuant to this Agreement, whether in full or in part, is subject to and contingent upon the continuing availability of County funds for the purposes hereof. In the event that funds become unavailable, as determined by the County, the County may immediately terminate this Agreement or amend it accordingly.

5. **INDEPENDENT CONSULTANT:** In providing services under this Agreement, the Consultant acts as an independent Consultant and not as an employee of the County. The Consultant shall be solely and entirely responsible for his/her acts and the acts of his/her employees, agents, servants, and Subconsultants during the term and performance of this Agreement. No employee, agent, servant, or Subconsultant of the Consultant shall be deemed to be an employee, agent, or servant of the County because of the performance of any services or work under this Agreement. The Consultant, at its expense, shall procure and maintain workers' compensation insurance as required by law. Pursuant to the Workers' Compensation Act § 8-40-202(2)(b)(IV), C.R.S., as amended, the Consultant understands that it and its employees and servants are not entitled to workers' compensation benefits from the County. The Consultant further understands that it is solely obligated for the payment of federal and state income tax on any moneys earned pursuant to this Agreement.

6. **NONDISCRIMINATION:**

6.1. **The Consultant shall not discriminate against any employee or qualified applicant for employment because of age, race, color, religion, marital status, disability, sex, or national origin. The Consultant agrees to post in conspicuous places, available to employees and applicants for employment, notices provided by the local public agency setting forth the provisions of this nondiscrimination clause. Adams County is an equal opportunity employer.**

6.1.1. The Consultant will cause the foregoing provisions to be inserted in all subcontracts for any work covered by this Agreement so that such provisions will be binding upon each Subconsultant, provided that the foregoing provisions shall not apply to contracts or subcontracts for standard commercial supplies or raw materials.

7. **INDEMNIFICATION:** The Consultant agrees to indemnify and hold harmless the County, its officers, agents, and employees for, from, and against any and all claims, suits, expenses, damages, or other liabilities, including reasonable attorney fees and court costs, arising out of damage or injury to persons, entities, or property, caused or sustained by any person(s) as a result of the Consultant's negligent performance or failure to perform pursuant to the terms of this Agreement or as a result of any Subconsultants' performance or failure to perform pursuant to the terms of this Agreement.
8. **INSURANCE:** The Consultant agrees to maintain insurance of the following types and amounts:

8.1. **Commercial General Liability Insurance:** to include products liability, completed operations, contractual, broad form property damage and personal injury.

8.1.1. Each Occurrence: $1,000,000
8.1.2. General Aggregate: $2,000,000

8.2. **Comprehensive Automobile Liability Insurance:** to include all motor vehicles owned, hired, leased, or borrowed.

8.2.1. Bodily Injury/Property Damage: $1,000,000 (each accident)
8.2.2. Personal Injury Protection: Per Colorado Statutes

8.3. **Workers' Compensation Insurance:** Per Colorado Statutes

8.4. **Professional Liability Insurance:** to include coverage for damages or claims for damages arising out of the rendering, or failure to render, any professional services, as applicable.

8.4.1. Each Claim: $2,000,000

8.4.2. This insurance requirement applies only to the Consultants who are performing services under this Agreement as professionals licensed under the laws of the State of Colorado, such as physicians, lawyers, engineers, nurses, mental health providers, and any other licensed professionals.

8.5. **Adams County as "Additional Insured":** The Consultant's commercial general liability, and comprehensive automobile liability insurance policies and/or certificates of insurance shall be issued to include Adams County as an "additional insured" and shall include the following provisions:

8.5.1. Underwriters shall have no right of recovery or subrogation against the County, it being the intent of the parties that the insurance policies so affected shall protect both parties and be primary coverage for any and all losses resulting from the actions or negligence of the Consultant.

8.5.2. The insurance companies issuing the policy or policies shall have no recourse against the County for payment of any premiums due or for any assessments under any form of any policy.

8.5.3. Any and all deductibles contained in any insurance policy shall be assumed by and at the sole risk of the Consultant.

8.6. **Licensed Insurers:** All insurers of the Consultant must be licensed or approved to do business in the State of Colorado. Upon failure of the Consultant to
furnish, deliver and/or maintain such insurance as provided herein, this Agreement, at the election of the County, may be immediately declared suspended, discontinued, or terminated. Failure of the Consultant in obtaining and/or maintaining any required insurance shall not relieve the Consultant from any liability under this Agreement, nor shall the insurance requirements be construed to conflict with the obligations of the Consultant concerning indemnification.

8.7. **Endorsement:** Each insurance policy herein required shall be endorsed to state that coverage shall not be suspended, voided, or canceled without thirty (30) days prior written notice by certified mail, return receipt requested, to the County.

8.8. **Proof of Insurance:** At any time during the term of this Agreement, the County may require the Consultant to provide proof of the insurance coverage or policies required under this Agreement.

9. **DAMAGES ARISING FROM BREACH OF PERFORMANCE OBLIGATIONS**

9.1. Notwithstanding anything else set forth in this Agreement, if Consultant fails to comply with all terms of this contract, including but not limited to, its obligation to perform its work in a workmanlike manner in accordance with all codes, plans, specifications and industry standards, Consultant shall be liable to County for all damages to the extent directly by the breach, including but not limited to, all reasonable attorney fees, costs and other damages.

10. **WARRANTY:**

10.1. The Consultant warrants and guarantees to the County that all work, equipment, and materials furnished under the Agreement are free from defects in workmanship and materials for a period of one year after final acceptance by the County. The Consultant further warrants and guarantees that the plans and specifications incorporated herein are free of fault and defect sufficient for Consultant to warrant the finished product after completion date. Should the Consultant fail to proceed promptly in accordance with this guarantee, the County may have such work performed by another Consultant. This section does not relieve the Consultant from liability for defects that become known after one year.

11. **TERMINATION:**

11.1. **For Cause:** If, through any cause, the Consultant fails to fulfill its obligations under this Agreement in a timely and proper manner, or if the Consultant violates any of the covenants, conditions, or stipulations of this Agreement, the County shall thereupon have the right to immediately terminate this Agreement, upon giving written notice to the Consultant of such termination and specifying the effective date thereof.
11.2. For Convenience: The County may terminate this Agreement at any time by giving written notice as specified herein to the other party, which notice shall be given at least thirty (30) days prior to the effective date of the termination. If this Agreement is terminated by the County, the Consultant will be paid an amount that bears the same ratio to the total compensation as the services actually performed bear to the total services the Consultant was to perform under this Agreement, less payments previously made to the Consultant under this Agreement.

12. MUTUAL UNDERSTANDINGS:

12.1. Jurisdiction and Venue: The laws of the State of Colorado shall govern as to the interpretation, validity, and effect of this Agreement. The parties agree that jurisdiction and venue for any disputes arising under this Agreement shall be with Adams County, Colorado.

12.2. Compliance with Laws: During the performance of this Agreement, the Consultant agrees to strictly adhere to all applicable federal, state, and local laws, rules and regulations, including all licensing and permit requirements. The parties hereto aver that they are familiar with § 18-8-301, et seq., C.R.S. (Bribery and Corrupt Influences), as amended, and § 18-8-401, et seq., C.R.S. Without limiting the generality of the foregoing, the Consultant expressly agrees to comply with the privacy and security requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

12.3. OSHA: The Consultant shall comply with the requirements of the Occupational Safety and Health Act (OSHA) and shall review and comply with the County’s safety regulations while on any County property. Failure to comply with any applicable federal, state or local law, rule, or regulation shall give the County the right to terminate this agreement for cause.

12.4. Record Retention: The Consultant shall maintain records and documentation of the services provided under this Agreement, including fiscal records, and shall retain the records for a period of three (3) years from the date this Agreement is terminated. Said records and documents shall be subject at all reasonable times to inspection, review, or audit by authorized Federal, State, or County personnel.

12.5. Assignability: Neither this Agreement, nor any rights hereunder, in whole or in part, shall be assignable or otherwise transferable by the Consultant without the prior written consent of the County.

12.6. Waiver: Waiver of strict performance or the breach of any provision of this Agreement shall not be deemed a waiver, nor shall it prejudice the waiving
party’s right to require strict performance of the same provision, or any other
provision in the future, unless such waiver has rendered future performance
commercially impossible.

12.7. Force Majeure: Neither party shall be liable for any delay or failure to perform
its obligations hereunder to the extent that such delay or failure is caused by a
force or event beyond the control of such party including, without limitation, war,
embargoes, strikes, governmental restrictions, riots, fires, floods, earthquakes,
or other acts of God.

12.8. Notice: Any notices given under this Agreement are deemed to have been
received and to be effective:

receipt requested;

14.6. If the Consultant obtains actual knowledge that a Subconsultant performing work under this public contract for services knowingly employs or contracts with an illegal alien, the Consultant shall: notify the Subconsultant and the County within three (3) days that the Consultant has actual knowledge that the Subconsultant is employing or contracting with an illegal alien; and terminate the subcontract with the Subconsultant if within three days of receiving the notice required pursuant to the previous paragraph, the Subconsultant does not stop employing or contracting with the illegal alien; except that the Consultant shall not terminate the contract with the Subconsultant if during such three (3) days the Subconsultant provides information to establish that the Subconsultant has not knowingly employed or contracted with an illegal alien.

The County shall not be responsible for interpretations offered by employees of the County who are not agents of the County's Purchasing Division.

8. **COOPERATIVE PURCHASING:** Adams County encourages cooperative purchasing in an effort to assist other agencies to reduce their cost of bidding and to make better use of taxpayer dollars through volume purchasing. Contractor(s) may, at their discretion, agree to extend the prices and/or terms of the resulting award to other state or local government agencies, school districts, or political subdivisions in the event they would have a need for the same product/service. Usage by any entity shall not have a negative impact on Adams County in the current term or in any future terms.

9. The Contractor(s) must deal directly with any governmental agency concerning the placement of purchase orders/agreements, freight/delivery charges, Contractual disputes, invoices, and payments. Adams County shall not be liable for any costs or damages incurred by any other entity.

10. **BUDGET:** Intent of this RFP is to select and award based on best value approach for future projects on a fee proposal basis. As individual projects arise, work scope, project budget and fees will be established based upon the approved fee structure.

1. INTRODUCTION

PROJECT DESCRIPTION:
Background: Adams County has been in the top 10 in the country for population growth over the past couple years and has already seen increased demands for services. Those demands directly affect the improvements in facilities to support needed services. In order for the County to respond quickly, yet still provide continuity through master planning, maintain our established standards and common branding in facilities, and provide this all with an economy of scale/best value for the County, the County is soliciting for partnerships with Design Professionals to accomplish this potential work.

To that end, Adams County is seeking qualified firms to provide Professional Design Services for projects specific to justice type functions at various facilities county wide. Facilities included as examples may be, but are not limited to: Detention Facility (Jail); Court House; District Attorney’s Building; Probation; and miscellaneous justice service facilities and satellite locations. Adams County is looking to establish a fee schedule and award to an Architect for future work.

Please note that these proposed services specifically exclude projects for or within the Riverdale Regional Park and those specifically General Practice/Purpose (business, commercial, shops, etc.) but may include satellite or tenant improvement type work in those excluded locations.

Projects already identified in the next few years (although still dependent on the annual budget allocations) may include, but not be limited to: Detention Facility growth or rehabilitation strategy; renovation of existing Justice facilities; and miscellaneous tenant improvements in leased locations. The County may also periodically require feasibility studies, concept plans, programming statements, renderings or similar materials to explore project concepts and budgets prior to commencing design. Continued County growth, program improvements, and yet unidentified needs are likely to foster other projects of scopes yet to be determined.

In order to accomplish this, the County desires the services of an Architect (all disciplines to be provided). On a project by project basis, the County will determine if a design professional is required, and which discipline will be the lead professional based on the primary scope of work and available budget and negotiate a final fee based on the fee structure approved from this RFP. The County will award one or more firms for this RFP for on-call services.

The Contractor shall be solely and entirely responsible for his/her acts and the acts of his/her employees, agents, servants, and subcontractors during the term and performance of this Agreement. No employee, agent, servant, or subcontractor of the Contractor shall be deemed to be an employee, agent, or servant of the County because of the performance of any services or work under this Agreement. The Contractor, at its expense, shall procure and maintain workers' compensation insurance as required by law. Pursuant to the Workers' Compensation Act § 8-40-202(2)(b)(IV), C.R.S., as amended, the Contractor understands that it and its employees and servants are not entitled to workers' compensation benefits from the County. Upon failure of the Contractor to furnish, deliver and maintain such insurance as provided herein, this contract, at the election of the County, may be immediately declared suspended, discontinued or terminated.

- Contractor shall comply with the requirements of the Occupational Safety and Health Act (OSHA) and shall review and comply with the County’s safety regulations while on any County property. Failure to comply with any applicable federal, state or local law, rule, or regulation shall give the County the right to terminate this agreement for cause.

AS AMENDED 5/13/08: Pursuant to Colorado Revised Statute (C.R.S.), § 8-17.5-101, et. seq., as amended 5/13/08, the Contractor shall meet the following requirements prior to signing this Agreement (public contract for service) and for the duration thereof.

Upon failure of the Contractor to furnish, deliver and/or maintain such insurance as provided herein, this Agreement, at the election of the County, may be immediately declared suspended, discontinued, or terminated. 8. **DAMAGES ARISING FROM BREACH OF PERFORMANCE OBLIGATIONS**

8.1. Notwithstanding anything else set forth in this Agreement, if Contractor fails to comply with all terms of this contract, including but not limited to, its obligation to perform its work in a workmanlike manner in accordance with all codes, plans, specifications and industry standards, Contractor shall be liable to County for all damages arising from the breach, including but not limited to, all attorney fees, costs and other damages.

3. Section II of the RFP Scope of Work (and the associated Pricing Form) notes the requirement to submit “pricing” in a separate sealed envelope. Can you please confirm the information that is being requested on the Pricing Form, specifically, what is desired for “Proposed Ranges”, for each of the provided 3 tiers of project scale? Does this essentially equate to an average overall fee % (or percentage range) based on the 3 tiers of project value? Additionally, instructions in part II of the Scope of Work mentions the requirement to submit separate pricing forms dependent on your selected discipline. Would it be possible to clarify this specific note further?

Response: Proposal Ranges are intended to be an average percentage (%) of the total project and/or construction cost. This percentage shall include all disciplines (full team) for general scope of services as described in the RFP.

The part II identification of forms separate dependent on discipline is a typographic error. Please disregard this statement.

4. Understanding this is a 3 year contract (2 year with a 1 year option to renew), will the selected team have the opportunity to revisit standard billing rates annually, or will the initial billing rates be required to remain in effect for the length of the contract?

Response: Intent is to maintain the billing rates as identified. If there is desire to revisit rates on an annual basis, please provide that in the Fee Proposal, along with the anticipated Not To Exceed increase rate.

5. To confirm, a Geotechnical firm is not required to be included as a part of the overall proposed team, rather we only need to include the capability necessary to “review” geotechnical information provided by the County. Is this an accurate statement?

Response: The assumption provided in the question is correct.
6. Is there any potential for ground up work or is the scope confined to tenant improvement?

Response: There is potential for ground-up, tenant improvement, major maintenance, exterior and interior based projects.

7. In the scope of work section III.f Firm's Qualifications, the RFP's requires we list all similar and relevant work completed in the last ten years. We cannot fit a list of all relevant work in the eight page format provided however. Please provide guidance. Can the requirement be refined to include a select number of projects, rather than requiring all projects?

Response: The Summary of Qualifications page is for the accumulated experience to be provided for the past 10 years. Examples of projects/references are not to be provided for each of those projects, but for a sampling of projects most similar to the defined scope in the RFP. Quantities are not limited, but proposal sections shall be within the page limits identified.

8. Page 5 states “Please provide two copies of submitted pricing in a sealed clearly marked envelope” and page 16 requests 8 submittals of each proposal. Could you please verify the number of copies of the bound proposal and separate sealed pricing needed?

Response: Please provide the copies as defined in the RFP. Two (2) copies of the Fee Proposal in a separate sealed envelope; and Eight (8) Hardcopies of the Proposal.

9. In the sample contract on page 30, the insurance requirements listed for Commercial General Liability, each occurrence as $2,000,000. We have a $1,000,000 each / $2,000,000 General Aggregate CGL policy and a $2 million umbrella. Will this be acceptable?

Response: Please provide the insurance as requested in the RFP, or propose your alternate as part of the proposal.

10. Do we need to complete the following forms: Contractor Certification of compliance, reference form, or the term of acceptance form?

Response: Please provide all forms as requested in the RFP.
11. Throughout the agreement, the terms "Guarantee, Warranty, Warrant, Certifications, Certify" are used. {We are} unable to provide any Guarantee, Warranty, Warrant, Certifications, Certify and we would need to exclude and/or revise these terms to achieve a workable agreement.

Response: We can revise guarantee/warranty language. Please include any clarifications with the Proposal specifically related to the Sample Agreement. In any case, Adams County respects the business decision of each Vendor on whether or not to submit a proposal under these clarifications.

12. On page 30 of 41, Article 7 Indemnification: Our insurance provider would not insure this project with the clause as stated, which would make this an uninsurable agreement. To pursue this project, we would request modifying this paragraph to "result of the Contractor's negligent performance or failure"

Response: Yes we can add negligent. Please include any clarifications with the Proposal specifically related to the Sample Agreement. In any case, Adams County respects the business decision of each Vendor on whether or not to submit a proposal under these clarifications.

13. On page 32 of 41, (Article 7 Indemnification or 5. Insurance:) "Contractor shall be liable for actual and consequential damages to the County. Revise to: "Contractor shall be liable for actual and mutual exclusion of consequential damages to the County."

Response: This section cannot be altered.

*DLR Group is a full service architectural and engineering firm. The above rates apply to all architectural, engineering, and associated support staff in providing the list of services available.

Fees for justice projects can be in the range of 10-12% of the construction cost where there is new shell construction, remodel scope and complex phasing. We typically base our fees on the work scope for each individual project rather than the anticipated construction cost. Construction cost fee basis can be a metric for a fee comparison but can often result in a fee that is too high or too low. Our fee ranges are based on the a 10-12% listed in this proposal. The range is divided into a percentage of the total design fee for each design milestone. Reimbursable costs are estimated as a separate not to exceed fee and will vary depending on the size of the project.

Verification of Qualifications Summary:

Name and Title (Printed) Date
City of Englewood Police Headquarters

Scope Summary  The City of Englewood Police Headquarters will be a new multi-phased, 56,000SF police operations building with parking that will be constructed on the site in Englewood, CO. The facility is site planned on the north end of the block to facilitate a move from the adjacent building which will then be demolished and replaced with secured parking supporting police operations.

Design Summary - This challenging site has given us a number of opportunities to address the requirements for a modern police facility and make connections to the surrounding community. While the functional requirements must be met, the overall planning for this project strives to make a pedestrian connection along the Street to a civic plaza adjacent to the main lobby and building entrance.

Internally, the building has 4 primary security zones: Public, Semi-Secure, Secure, and Maximum Secure, with the levels of security generally increasing from east to west (Elati to Fox Street). These interior spaces are connected along a single east west corridor that is bisected by a second corridor. A major circulation core with elevator and monumental stair is placed at this intersection to maximize the circulation efficiency between floors and departmental units.

Within the building, daylighting strategies will be employed to bring natural light into the lower level of the building. Each circulation core will have daylight connections from roof openings to the lower level floor. Additionally, interior office areas will have roof skylights for daylight.

The west end of the building, opposite the public front, facilitates the operational staging and access into the building by the various police units and staff. The secured parking will support activities for Patrol, SWAT, Investigations, Code Enforcement, Community Services, and other departmental staff.
Adams County Mental Health Unit Renovation

Scope Summary - Complete programming sessions were conducted identifying and discussing each space and the room needed for the operations of the Mental Health Unit. From this space/operations program, a conceptual plan was explored to determine the most secure, operationally and cost effective option. From this conceptual plan, we developed a construction cost estimate model using our in-house cost information database.

Our deliverables were a final detailed program and conceptual space plan with the cost model. In developing this report, we reviewed our findings and recommendations with our internal engineers for cost effective solutions for HVAC, electrical and security solutions. With this final report's information, the County developed the funding and implementation plan to move the project forward.

After the preparation of this comprehensive report and draft review by County staff, our team attended a meeting to present and review the findings with the County's Executive Group for consensus building, prior to moving forward with the final report and implementation plan.

Relevance to Adams County

- Familiarity with Facility
- Multiple Government Entities
- Secure Site and Building
- Public/Private Separation
The Adams County Justice Center buildout consisted of shelled out space. This area was shelled out during the original construction of the building for future use and expansion. The primary focus of this expansion was to create a new DA AND CLERK WAITING AREA that was larger and more comfortable for the users. This space included a new area for waiting, DA and Clerk counter, and a tech lounge. In addition to the new waiting area, the design team provided new deputy DA and public offender offices. The design of the new offices focused on getting daylight into the space while maintaining privacy of sensitive information.

Additional support spaces for the new waiting area were included in the design such as a staff room, open office workstations for staff, and the buildout of ADR rooms and Judges chambers.

Due to the expansion, the team was tasked with converting the previous waiting area to a courtroom.

Lastly, the team also designed and built out a new courtroom and two new small hearing rooms on the 3rd floor with adjacent support areas, including jury deliberation, holding cells, judge’s chambers, and courts staff areas.

Scope of Services and Approach

Project tasks will be developed around a Schedule that includes Client meetings, coordination meetings, Project milestones, critical decision making activities, and required approvals. The schedule will outline the planned duration for each Project phase, required approvals, pre-planning tasks and deliverables, including early participation of regulatory agencies and advisory committees to avoid delays in obtaining the final approvals. Periodic management meetings with the County Management Team, the User Groups and possibly the General Contractor to review anticipated activities and outstanding issues is critical to build consensus among team members necessary to maintaining the Project schedule.

Our partnership approach will encourage the participation of the various team members and stakeholders. Project meetings will be led by the Project Manager, and may incorporate collaborative work sessions with the County Management Team and User Groups. An initial kick off meeting will be scheduled to discuss the existing conditions, work scope and schedule, project team organization, project history, budget overview, technical standards, project deliverables, proposed meeting dates, and other planning and / or design issues specific to the Project. Other meetings will be scheduled in accordance with the Work Plan to collaborate the design process with the Team.

We will staff the On-Call Contract with a DLR Group Project Manager, Project Architect, Project Designer, and with Project Engineers for mechanical, electrical, plumbing, technology, and acoustics (as needed). Our integrated team has been selected based upon their technical expertise and experience with Adams County. As a Project becomes available, we will review the scope and schedule to determine what additional staff may be required to service the Project.

The purpose of a staffing plan is to make certain the project has sufficient staff with the right skills and experience to ensure a successful project completion. While every project is different, how DLR Group breaks down staffing is the same: we start with a detailed breakdown of the roles required to execute all project activities. For each major project activity it includes: the project role, the project responsibility of the role, skills required, number of staff required to fulfill the role, the estimated start date and the expected duration the staff resources will be needed on the project. The great thing about DLR Group is that we have built-in redundancies. There will never be a delay in our ability to initiate a project for Adams County.

Central to the success of any project is communication and it’s at the core of our project approach. Good communication includes attentive listening, including being attentive to the subtle differences individual

Quality Control

DLR Group has a Quality Assurance/Quality Control (QA/QC) program in place. The QA/QC program serves as an instructional process intended to minimize document deficiencies. DLR Group has a Quality Assurance / Quality Control program in place, comprised of the following components:

1. Document Control
2. Schedule Control
3. Budget Control

The QA/QC program serves as an instructional process intended to minimize document deficiencies, to maintain deliverables on schedule and within budget.

1. Schedule Control: We will utilize scheduling software to identify and track key decision making activities and development milestones. Within these milestones, we will incorporate required approvals, OAC meetings, pre-planning tasks, early participation of review agencies, tasks and deliverables, interim milestones, progress printings, QA/QC coordination reviews, peer reviews, City reviews, CM/GC pre-construction activities, and other elements important to the Project delivery. We will track these weekly and will be prepared to discuss the design progress on a weekly basis with the Team.

2. Budget Control: Controlling project costs begins with our firm’s extensive experience and our awareness of the macro cost drivers for this project, including program, skin ratio, building volume, site work, glazing, and security needs. Our team will use an integrated design process to optimize building systems at the conceptual design phase to ensure appropriate and responsible decisions are made. We will present options for team evaluation of initial cost, efficiency, and life cycle cost. Building systems will be reviewed closely with our Cost Estimator and refined with her cost input.

Document Control: Team continuity and experience are key factors in the development and delivery of quality documents. Our team is experienced in all of the major delivery components regarding municipal work, including building type, phasing, and integrated design. Our key team members will be involved in Projects from initiation to the end of the construction phase. We will implement a structured document control plan that includes regular coordination meetings, progress printings, technical document reviews, code reviews, peer reviews, and compliance with office standards.

In addition, the QA/QC program utilizes senior professionals from technical, managerial and construction practice areas throughout the review process.
The Project Manager and each design architect, engineer and support staff team member are required to use their respective QA/QC process and checklists on a phase-by-phase basis to ensure that the highest quality of service is provided on each and every project. At the end of each business quarter projects are graded on level of use of the quality assurance process and a report card is given to each project manager and design team. These grading systems are then looked at with the overall career development of individual employees.

In addition, the QA/QC program utilizes senior professionals, from technical, managerial and construction practice areas throughout the review process.

**Integrated Design QA/QC Checklists**

The QA/QC Reviewers use the system checklists to search for interdisciplinary coordination issues. Typical review items include: consistency of the systems selected in prior submittals, technical soundness of details provided and the accuracy of the calculations. Cross-references on the drawings are checked for accuracy. Terminology and systems used on the drawings and specifications are checked for coordination.

All project documents and deliverables that are produced by subconsultants are subjected to the same strenuous review process by the in-house resources at DLR Group and not allowed to be distributed for use until they meet the high standards of the architect of record. From an accountability standpoint each Peer Reviewer initials and dates their review checklists in order to document to City of Banning the required independent technical reviews were performed.

Efficient interaction with Adams County staff is imperative. DLR Group’s approach will be geared toward making our effort an additive benefit to you and not a set of extra tasks for Adams County staff to monitor.

We will customize the checklist and develop an individual list for each of the four buildings. The items in the checklist will address the project’s memorable goals, code requirements, building systems, and project deliverables. The quest for improvement in productivity, efficiency and quality in architecture practice is largely centered on the technology used for design. Such as 3D CAD programs (Autodesk Revit) and advanced Building Information Modeling (BIM). DLR Group has been utilizing these design programs for several years now and we have found that less attention is devoted to the problem of information management and workflow than the design tools. In the design and construction industry the dominant software product used is Microsoft Outlook for communications (which is not an efficient system for managing information). Realizing this, DLR Group utilizes “Newforma Project Center” for project information management.

**Percentage of Change Orders | Errors and Omissions**

DLR Group’s integrated approach means decisions are made quickly and efficiently. Due to this kind of practice, our change order percentage is less than half of 1%. We work hard to keep projects on time and on budget.

*DLR group is a full service architectural and engineering firm. The above rates apply to all architectural, engineering, and associated support staff in providing the list of services available.

Fees for justice projects can be in the range of 10-12% of the construction cost where there is new shell construction, remodel scope and complex phasing. We typically base our fees on the work scope for each individual project rather than the anticipated construction cost. Construction cost fee basis can be a metric for a fee comparison but can often result in a fee that is too high or too low. Our fee ranges are based on the a 10-12% listed in this proposal. The range is divided into a percentage of the total design fee for each design milestone. Reimbursable costs are estimated as a separate not to exceed fee and will vary depending on the size of the project.
