If this Agreement is terminated by the County, the Contractor will be paid an amount that bears the same ratio to the total compensation as the services actually performed bear to the total services the Contractor was to perform under this Agreement, less payments previously

made to the Contractor under this Agreement.

10. MUTUAL UNDERSTANDINGS:

RE: Adams County Trash Hauling/Disposal and Recycling Services, RFP No. 2015.002

Allied Waste Transportation, Inc., A Republic Services Company ("Republic"), is pleased to submit this proposal in response to Adams County Trash Hauling/Disposal and Recycling Services RFP 2015.002. Our goal in preparing this proposal was to be responsive to the scope of services as outlined in the RFP, and to ensure the highest standards of solid waste collection and recycling for Adams County. Republic Services is ready, willing, and able to perform the services as proposed with the utmost diligence and professionalism and to provide all of the services required in the Adams County RFP No. 2015.002 at a level that we believe will be unmatched by our competition.

Republic Services is the second largest provider of services in the domestic non-hazardous solid waste industry, as measured by revenue. We provide non-hazardous solid waste collection services for commercial, industrial, municipal and residential customers through 336 collection operations in 39 states and Puerto Rico. We own or operate 199 transfer stations, 190 active solid waste landfills, 69 recycling centers and 18,500 vehicles. We have over 31,000 employees, of which 296 are in Denver! We also operate 64 landfill gas and renewable energy projects. We were incorporated as a Delaware corporation in 1996. Our operations are national in scope, but the physical collection and disposal of waste is very much a local business and the dynamics and opportunities differ in each of our markets. By combining local operating management with standardized business practices, we drive greater overall operating efficiency across the company while maintaining day-to-day operating decisions at the local level, closest to the customer.

Republic Services has the expertise and fully integrated facilities to perform these services with the highest level of efficiency, quality and professionalism with a proven track record of outstanding service to those outlined in the Adams County RFP. Republic has operational, technical, and financial capabilities that we believe are unmatched in our industry. We are proud of our reputation as an outstanding leader within the solid waste industry, and look forward to the opportunity to serve as the Adams County integrated waste stream management service provider.

The legal entity that will be entering into an agreement with Adams County is Allied Waste Transportation, Inc., d/b/a, Allied Waste Services of Denver, Republic Services of Denver. Allied Waste is a wholly-owned subsidiary of Republic Services, Inc. ("Republic"). Republic is the 2nd largest integrated waste stream

From the formation of the company, Republic Services has been committed to the essential components of integrated solid waste management services: collection, recycling, composting, transfer and disposal. Each division of Republic Services is dedicated to preserving the environment while providing the most cost-effective programs for solid waste collection and disposal.

Republic Service has broad expertise in the waste management field, derived from a diverse array of hauling, transfer, recycling and disposal operations. Very few companies can equal the operational capabilities, financial stability, capital resources, broad experience, geographic dispersion, integrated infrastructure or transfer expertise that Republic Services brings to a project.

At Republic Services, there are no more important relationships than the ones we forge with each of our customers. We begin by listening, to understand their needs and wants today, and to anticipate how each customer may evolve. We want our customers to feel at ease because of the reliability of our services, uplifted by the environmental impact they can make partnering with Republic, and delighted by the simple solutions and array of services we provide.

In the end, it means we care about making a difference in our customers' lives, while helping them feel at ease, uplifted, even delighted in choosing Republic Services. We at Republic Services appreciate your consideration of our proposal and very much look forward to the opportunity to partner with Adams County to develop and sustain the right waste and recycling strategy!

Respectfully,

Adam Kennedy, Major Account Executive – Republic Services, Denver Mountain

Integrated Operations. We believe we have created a company with a strong, national operating platform that allows us to compete more effectively and efficiently in the local markets in which we operate. We seek to achieve a high rate of internalization by controlling waste streams from the point of collection through processing or disposal. During the year ended December 31, 2013, approximately 68% of the total waste volume we collected was disposed at landfills we own or operate (internalization). Our fully integrated markets generally have a lower cost of operations and more favorable cash flows than our non-integrated markets. Through acquisitions, landfill operating agreements and other market development activities, we create market-specific, integrated operations typically consisting of one or more collection operations, transfer stations and landfills. We also operate recycling centers in markets where diversion of waste is a priority and it is profitable to do so.

Commitment to People. Training and developing our people is a priority. We aspire to be a company where the best people want to work and are committed to doing their best work every day. We work to create and maintain an environment that attracts, develops and retains people who assure our success with customers, differentiate us from our competitors and allow us to be an employer of choice for top talent. As of December 31, 2013, we employed approximately 31,000 full-time employees, approximately 26% of whom were covered by collective bargaining agreements.

Commitment to Safety. We are dedicated to the safety of our employees, our customers and the communities we serve. Our *Think, Choose, Live* slogan encapsulates our everyday safety messaging to our employees to: *Think* about what you are doing, *choose* the safe answer, and *live* to go home to your family. With the phrase printed on numerous items, including hard hats and equipment our employees touch, there are constant reminders for employees to go home in the same condition that they came to work. Our goal is to ensure every one of our employees returns home safely each night. As a leader in the waste industry, we implement initiatives to help all employees take ownership of safety:

- **Focus 6 Program.** Our Focus 6 Program provides employees with guidance, tips and techniques to prevent the six most common types of serious accidents - backing, intersections, rear collisions, roll over, employee and pedestrian. The training employees receive from Focus 6 is the foundation of the countless decisions they have to make every day to stay safe.
- **Celebrate Safety Records.** We believe good safety records are something to celebrate, and we take pride in recognizing employees and divisions that demonstrate a relentless commitment to safety. Employees with the best driving records are eligible for the industry's most prestigious award, EIA's Driver of the Year. Every year since 2009, Republic drivers have been awarded this distinguished safety honor.
- **Educational Programs.** We have implemented an employee safety observation program that provides our employees with the tools to make safety a priority. Approximately 95% of our management team has completed modules within this program. Upon hire, our drivers also must complete a robust educational program, which approximately 85% of our drivers completed in 2013.

Commitment to Compliance. We also are dedicated to compliance. Compliance with laws and our policies and procedures is essential to our efforts to gain and keep the confidence and support of customers,

regulatory and other governmental agencies, suppliers and the public. Most important, compliance is simply the right thing to do and is a critical part of the way we do business. Accordingly, we require all of our employees and independent contractors to comply with all applicable laws and rules, our Compliance Program and our Code of Business Ethics and Conduct. We also require them to report any violation or illegal activity to us so that we may deal with it appropriately.

Best in the Business Drivers. All Republic Services drivers undergo an extensive background check through E-Verify and CDL verification, including pre-employment and random drug screens, prior to joining the Republic team. Once employment is offered, every driver undergoes the Smith System Defensive Driver Training program as well as continuous DOT training to ensure all skills are up to date and current. Republic Services does provide all drives with PPE (Personal Protection Equipment) to ensure their safety on the job and the safety of those they service. All drivers carry two way radios which allow real time problem solving when necessary as well as assists Republic in carrying out our “Were Looking Out for You Program”. This program trains all drivers to keep their eyes and ears open for anything out of the ordinary on their routes. It is like having another “Neighborhood Watch” program rolling through your Adams County areas.

Website. Our corporate website is www.republicservices.com We make available on this website, free of charge, access to our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, Proxy Statement on Schedule 14A and amendments to those materials.

Community Partnerships. Republic Services is a proud partner with the communities we serve. Republic Services has developed an effective business plan that specifically calls for communicating with our partner communities. Simply stated, we believe that listening to community concerns and considering community recommendations makes good business sense. Further, we think that investing in the local community by directing business to local vendors, who can provide competitive quality and price, is a good practice. We also choose to give priority consideration to employing qualified people from the local community. Mutually beneficial relationships with the communities we serve are a critical measure of success at Republic Services. We are very proud of the commitments that we have made to be a good neighbor.

Regulation. Our facilities and operations are subject to a variety of federal, state and local requirements that regulate, among other things, the environment, public health, safety, zoning and land use. Operating and other permits, licenses and other approvals generally are required for landfills and transfer stations, certain solid waste collection vehicles, fuel storage tanks and other facilities that we own or operate. These permits are subject to denial, revocation, modification and renewal in certain circumstances. Federal, state and local laws and regulations vary, but generally govern wastewater or storm water discharges, air emissions, the handling, transportation, treatment, storage and disposal of hazardous and non-hazardous waste, and the remediation of contamination associated with the release or threatened release of hazardous substances. These laws and regulations provide governmental authorities with strict powers of enforcement, which include the ability to revoke or decline to renew any of our operating permits, obtain injunctions, or impose fines or penalties in the event of violations,

including criminal penalties. The U.S. Environmental Protection Agency (EPA) and various other federal, state and local authorities administer these regulations.

1. Employ Quality Personnel

We retain highly skilled and experienced personnel. Competitive compensation allows us to attract the best customer service representatives in the field.

2. Easy Access for Customers

Appropriate staffing is critical to ensure timely communication between customer service representatives and Commerce City residents. We maintain a well-staffed local customer service department that allows us to minimize wait times and prioritize quick resolution to customer concerns.

3. Timely and Efficient Complaint Resolution

Republic Services has strong policies and an accountability system that facilitates proper complaint resolution and follow-up.

4. Train All Republic Services Employees in Customer Service

To ensure ownership and high level of quality service, every Republic Services employee is trained in customer service. All employees are evaluated annually on their performance of putting the customer first.

Republic Services is proud to offer Adams County a local and professional call center to personally handle customer service issues. Our customer service center is open from 7:00am to 5:00pm Monday through Friday. Republic Services agrees to retain a live customer service representative until 6:00pm on weekdays to meet Adams County requirements. Republic Services also employs multiple customer service representatives who are fluent in Spanish. During office hours, customer service representatives are available to handle calls from the public. After business hours, customers have the option to leave a message. The message will be returned the next business day if not sooner.

Our latest customer service statistics demonstrate a high level of customer care and satisfaction. Our average wait time before answering a call is less than twenty seconds. Republic Services employs a sophisticated service formula that prioritizes answering every call and minimizing wait times. The Denver division is consistently a top performer out of the entire West region for outstanding customer service.

Customer Service diligently tracks every customer issue. If an Adams County representative calls with a concern that collection has not occurred the situation will qualify as a “missed pick-up” and counts against our performance ratings. Customer calls, concerns and complaints will be documented and are available for Adams County’s review at any time.

Diversity and Inclusion. Our approach to diversity and inclusion: MOSAIC (Mission of Supporting an Inclusive Culture) incorporates leadership education, employee training, proactive recruiting, retention of employees, and measuring our progress with improving employee engagement and other key

metrics. We also provide annual EEO training and have robust EEO and anti-harassment policies that apply to all employees.

Disposal Facilities. This proposal from Republic Services, Inc. calls for the utilization of Republic Services' Towers and Foothills facility(s) for the disposal of municipal solid waste, and the Waste Management MRF facility (DADS) for recycling. The

These new collection vehicles can be used in conjunction with our carted trash and recycle programs only. The new CNG vehicles are semi automated and fully automated. Carted service is necessary for their operation. Once our fleet conversion is complete, Republic will use a semi-automated CNG truck for trash collection which will enable us to automate the cart contents and hand load any extras while using a fully automated CNG truck for recycle collection.

The expanded use of technology is one of the ways in which we intend to continue to meet our customers' expectations. We desire to make it easy and seamless for our customers to do business with us. For example, in the near future our technology will allow more customers to access information and perform functions, such as changing or making service requests and interacting with customer service representatives, online. By increasing the ease of use and functionality of our web-based market presence, we believe we will enhance customer satisfaction and retention while we lower our costs.
