## Chapter 2—APPLICATION AND PERMITTING PROCEDURES

### 2-01 COMMON DEVELOPMENT REVIEW PROCEDURES FOR DEVELOPMENT APPLICATIONS

This section outlines the general development review steps, which apply to all development applications or permits.

#### 2-01-01 STEP 1: CONCEPTUAL REVIEW

##### 2-01-01-01 PURPOSE

Conceptual review is an opportunity for an applicant to discuss requirements, standards, and procedures, which apply to a development proposal. Major problems can be identified and solved during conceptual review before a formal application is submitted. Representatives of the Planning and Development Department and Public Works Department regularly attend conceptual review meetings.

##### 2-01-01-02 APPLICABILITY

A conceptual review meeting is voluntary for all development applications. Conceptual review may be requested by an applicant as a means of identifying potential problems prior to making formal application. A request for conceptual review shall be made at least one (1) week in advance of the requested conceptual review meeting.

##### 2-01-01-03 CONCEPT PLAN SUBMITTAL

The applicant requesting a conceptual review meeting shall submit a sketch of the proposed development, conceptual review meeting checklist, and any conceptual review fees at least one (1) week in advance of the requested conceptual review meeting. The sketch should indicate the location of the proposed project, major streets, and other significant features in the vicinity. The applicant should also submit any conceptual designs to be discussed.

The degree of assistance provided by staff at the conceptual review meeting will depend upon the level of detail the applicant provides in the conceptual review meeting submittal. The applicant is encouraged to provide as much detail as possible when preparing the conceptual review meeting submittal.

**2-01-01-04 STAFF REVIEW AND RECOMMENDATION**

Following the conceptual plan meeting with the applicant, the Director of Planning and Development or Director of Public Works, in the case of some application types, (hereinafter in this Chapter "the Director" unless its context specifies one or the other) shall furnish the applicant with written comments regarding the plan, including appropriate recommendations to inform and assist the applicant. The written comments shall be mailed to the applicant within seven (7) days of the conceptual review meeting.

**2-01-02 STEP 2: NEIGHBORHOOD MEETINGS**

**2-01-02-01 PURPOSE**

The purpose of neighborhood meetings is to present the development concept to citizens and for the citizens to identify, list, and discuss issues related to the development proposal. Neighborhood meetings are held early in the process so affected property owners have an opportunity to provide input before excessive time and effort have been expended by the applicant.

Applicants are advised to get a determination of whether or not a neighborhood meeting is required prior to submitting an application that requires Planning Commission review. If an application is submitted and the Director determines that a neighborhood meeting is required, all review shall be held in abeyance until the applicant submits the required neighborhood meeting summary and affidavits.

**2-01-02-02 APPLICABILITY**

Neighborhood meetings may be required by the Director on a development proposal subject to Planning Commission review when the Director determines the development proposal could have significant neighborhood impacts.

If the Director determines that a neighborhood meeting is required, the applicant shall be responsible for scheduling, noticing, and coordinating the meeting. The applicant shall be responsible for all costs associated with holding the meeting.

**2-01-02-03 NEIGHBORHOOD MEETING REQUIREMENTS\***

Amended by the BoCC on January 28, 2013

**2-01-02-03-01 LOCATION**

In order to provide surrounding property owners the best opportunity to attend, the neighborhood meeting should be held on the subject property

whenever possible. If this is not possible, the meeting should be held on the closest practical location to the subject site. The location of the required neighborhood meeting shall follow the guidelines listed below:

- 1) Urban Adams County
  - a. If it is not possible to hold the neighborhood meeting on the subject property, the neighborhood meeting may be held at an alternate location that is a maximum of three (3) miles from the subject property
  - b. Exceptions to this policy may be granted in writing to increase the distance of the alternate location to approximately five (5) miles if applicants submit a request in writing with the proposed location and demonstrate that no practical locations within three (3) miles or less exist.
- 2) Semi-Urban Adams County
  - a. If it is not possible to hold the neighborhood meeting on the subject property, the neighborhood meeting may be held at an alternate location that is a maximum of five (5) miles from the subject property
  - b. Exceptions to this policy may be granted in writing to increase the distance of the alternate location to approximately fifteen (15) miles if applicants submit a request in writing with the proposed location and demonstrate that no practical locations within five (5) miles or less exist.
- 3) Rural Adams County
  - a. If it is not possible to hold the neighborhood meeting on the subject property, the neighborhood meeting may be held at an alternate location that is a maximum of fifteen (15) miles from the subject property
  - b. Exceptions to this policy may be granted in writing to increase the distance of the alternate location if applicants submit a request in writing with the proposed location and demonstrate that no practical locations within fifteen (15) miles or less exist.

These geographic areas are defined below:

- 1) Urban Adams County: all properties west of Imboden Road
- 2) Semi-Urban Adams County: all properties east of Imboden Road and west of Yellow Jacket Road
- 3) Rural Adams County: all properties east of Yellow Jacket Road to the eastern boundary of Adams County

**2-01-02-03-02      *TIME OF NEIGHBORHOOD MEETING***

The neighborhood meeting shall be held at a time that is convenient for most people, typically on a weekday evening between the hours of 5:00 p.m. and 8:00 p.m. or weekends at a reasonable time. The meeting shall not be scheduled on a legal holiday.

**2-01-02-04      *NOTICE OF NEIGHBORHOOD MEETING***

**2-01-02-04-01      *WRITTEN NOTICE***

Written notice of the neighborhood meeting shall be given by the applicant to the owners of record of all real property within five hundred (500') feet (exclusive of public rights-of-way, public facilities, parks, or public open space) of the property lines of the parcel of land for which the development is planned. Designated representatives of neighborhood groups and homeowner's associations within the area of notification shall also receive written notice from the applicant.

The written notices shall be mailed at least ten (10) days prior to the meeting date. The notice shall state the date, time, place, and purpose of the neighborhood meeting and shall include a map of the property.

**2-01-02-05      *ATTENDANCE AT NEIGHBORHOOD MEETING***

The applicant or applicant's representative shall attend the neighborhood meeting. The Planning and Development Department may also send a representative.

**2-01-02-06      *FORMAT OF NEIGHBORHOOD MEETING***

The neighborhood meeting shall be held in an open house format. Maps of the development site, site plans and architectural elevation drawings should be available for review by the public. The applicant or applicant's representative shall be available to answer questions. The applicant shall provide comment sheets for participants to provide feedback concerning the proposed development. The applicant shall offer participants the opportunity to provide their name and mailing addresses for the purpose of receiving notice of public hearings concerning any application that is subsequently submitted.

**2-01-02-07      *SUMMARY OF NEIGHBORHOOD MEETING***

A written summary of the neighborhood meeting shall be prepared by the applicant. The written summary shall be included with the development application submittal and shall explain how any issues identified at the

neighborhood meeting have been addressed. In addition, any names and addresses for participants who would like to receive notice of public hearings concerning any application, which is subsequently submitted shall be submitted with the meeting summary.

**2-01-03 STEP 3: DEVELOPMENT APPLICATION SUBMITTAL**

**2-01-03-01 DEVELOPMENT APPLICATIONS**

All development applications shall be submitted in a form established by the Director. Development applications, when submitted, shall be made available to the public.

**2-01-03-02 CONSOLIDATED DEVELOPMENT APPLICATIONS AND REVIEW**

When multiple development application types must be submitted for the same overall development proposal, the applications may be consolidated for submittal and review, at the discretion of the Director. A consolidated application shall only be reviewed, considered, and decided by the highest level board or commission that would have made a decision concerning an individual application had it been submitted, processed and considered as a series of separate development applications. Decision-makers, from highest level to lowest level, are the Board of County Commissioners, Board of Adjustment, and the Director, respectively. If the highest level of decision-maker is determined to be the Board of County Commissioners, the Planning Commission may be required to consider the application at a public hearing and provide a recommendation to the Board of County Commissioners.

**2-01-03-03 DEVELOPMENT APPLICATION CONTENTS**

The development application submittal requirements shall be established by the Director. The submittal requirements shall, at a minimum, include a list of all information, data, explanations, analysis, testing, reports, tables, graphics, maps, documents, forms, or other items reasonably necessary, desirable, or convenient to: (1) determine whether or not the applicant, developer and/or owner have the requisite power, authority, clear title, good standing, qualifications, and ability to submit and carry out the development and/or activities requested in the development application; and (2) determine whether or not the development activities and development application address and satisfy each and every applicable general development standard, district standard, or other requirement or provision of these standards and regulations.

**2-01-03-03-01      *SUBMITTAL REQUIREMENT***

Each development application shall be submitted to the Director and shall include the identified submittal requirements for said development application. The Director may waive items not applicable due to the particular conditions and circumstances of said development proposal.

**2-01-03-03-02      *DEVELOPMENT REVIEW FEES***

Development review fees shall be established by resolution by the Board of County Commissioners. The development review fees shall be paid at the time of submittal of any development application.

**2-01-04      *STEP 4: DETERMINATION OF SUFFICIENCY***

After receipt of the development application, the Director shall determine whether the application is complete and ready for review. The determination of sufficiency shall not be based upon the perceived merits of the development proposal. If a submittal is found to be insufficient, all review of the submittal will be held in abeyance until the Director receives the necessary material to determine that the submittal is sufficient. The development application shall not be determined to be accepted nor shall the application be reviewed until the application submittal is determined sufficient by the Director.

Upon acceptance, the Director shall send written notice to the owners of record of all real property located within a minimum of five hundred (500') feet (exclusive of public rights-of-way, public facilities, parks, or public open space) of the property lines of the parcel of land for which the development is planned. Notice shall also be provided to all owners of mineral interests concerning impending surface development based on a certified list of owners provided by the applicant. Designated representatives of neighborhood groups and homeowner's associations within the area of notification shall also receive written notice from the Director. In addition, the Director shall send notice to all individuals who attended the neighborhood meeting and requested to be notified of the progress of the application for development. The notice shall be mailed by the Director within seven (7) days of the date of acceptance of the application. The notice shall describe the nature of the application and the deadline for pre-hearing comments.

**2-01-05      *STEP 5: STAFF REPORT***

Within seven (7) days after determining the development application is sufficient, the Director shall refer the development application to the appropriate referral agencies. Referral agencies shall have twenty-one (21) days from the date of mailing to submit their comments to the Director. If a referral agency identifies concerns that require an

investigation, the applicant, the County Commissioners, and the agency may agree to a thirty (30) day extension of this time limit. Failure of the reviewing agencies to respond within the specified time limit or within the time period of an extension shall be considered a favorable response for the purpose of the review. Following is a list of the potential reviewing agencies:

1. The appropriate school district;
2. Each county and/or municipality within three (3) miles of the boundary of the proposed development;
3. All utility districts, associations, or companies providing service in the immediate vicinity of the proposed development;

Each referral agency shall be asked to send a copy of their comments to the applicant, but the applicant should contact the Director to ensure all comments are received.

Following receipt of the referral agency comments or at the end of the review period, the Director shall review the development application and prepare a staff report.

The staff report shall be made available for inspection and copying by the applicant and the public at least fourteen (14) days prior to the scheduled public hearing on the development application. The staff report shall indicate whether, in the opinion of the staff, the development application complies with all applicable standards of these standards and regulations. Conditions for approval may also be recommended to eliminate any areas of non-compliance or to mitigate any adverse effects of the development proposal.

## **2-01-06 STEP 6: NOTICE**

Designated representatives of neighborhood groups and homeowner's associations within the area of notification shall also receive written notice from the Director.

The written notices shall be mailed at least ten (10) days prior to the first public hearing date concerning the application. The written notice shall state the date, time, place, and purpose of the public hearing(s). Failure to mail such notice shall not affect the validity of any hearing or determination by the Planning Commission, Board of Adjustment, or Board of County Commissioners.

### **2-01-06-02 POSTED NOTICE**

Notice of the time, date, and place of the public hearing(s) on the development application shall be published in the official County newspaper at least thirty (30) days prior to any hearing before the Board of County Commissioners. **2-01-07-02-02 FINDINGS**

All decisions shall include at least the following elements:

1. A statement of specific findings or other factors considered, whichever is appropriate, and a statement of the basis upon which the facts were determined, with specific reference to the relevant standards set forth in these standards and regulations; and

In the case of a final plat, once the final construction plans and final plat are approved, the subdivision improvements agreement is executed and any other conditions of approval have been met, the final plat shall be recorded in the Office of the Adams County Clerk and Recorder.

**2-01-08 STEP 8: STANDARDS**

Before approving a development application, the Planning Commission, Board of Adjustment, or Board of County Commissioners must find that the development application has met the requirements of these standards and regulations and complies with the required criteria for approval.

**2-01-09 STEP 9: CONDITIONS OF APPROVAL**

The Planning Commission, Board of Adjustment, or Board of County Commissioners may impose such conditions on approval of the development application as are necessary to accomplish the purposes and intent of these standards and regulations. Such conditions must have a reasonable nexus to potential impacts of the proposed development and should be roughly proportional, both in nature and extent, to the impacts of the proposed development or shall be mutually agreed upon by Adams County and the applicant. (See Section 1-08 for further limitations on conditions.)

**2-01-10 STEP 10: AMENDMENTS**

**2-01-10-01 MINOR AMENDMENTS**

Minor amendments to any approved development plan may be approved, approved with conditions, or denied administratively by the Director and may be authorized without additional public hearings. Such minor amendments may be authorized by the Director as long as the development application, as amended, continues to comply with these standards and regulations, at least to the extent of its original compliance.

Minor amendments shall consist only of any or all of the following:

1. The amendment results in an increase or decrease by five-percent (5%) or less in the approved number of dwelling units;
2. The amendment results in an increase or decrease in the amount of square footage of a non-residential land use or structure that does not change the character of the project;
3. The amendment results in a change in the housing mix or use mix ratio which complies with the requirements of the zone district and does not change the character of the project; or
4. The amendment does not result in a change in the character of the development.

The Director may refer a minor amendment to the Planning Commission. If so referred, the decision of the Planning Commission shall constitute a final decision, subject to appeal to the Board of County Commissioners.

**2-01-10-02 MAJOR AMENDMENTS**

Amendments to any approved development plan not determined by the Director to be a minor amendment under the criteria set forth in Section 2-01-10-01 shall be deemed a major amendment.

Major amendments to development plans shall be reviewed and processed in the same manner as the original development plan for which the amendment is sought. Any approved major amendments shall be recorded in accordance with the procedures for recording the original development plan approval.

Any partial or total abandonment of an approved development plan shall be considered a major amendment.

**2-02-03 CERTIFICATE OF DESIGNATION****2-02-03-01 PURPOSE**

The purpose of this section is to detail the steps for obtaining a certificate of designation. Certificates of designation are required for those solid waste and hazardous waste disposal sites and/or processing facilities, which are presumptively incompatible with other land uses, authorized or permitted in a zone district and may have long-term ramifications to the use of surrounding lands. In addition to meeting applicable performance standards, certificates of designation may require the imposition of conditions in order to ensure the number of solid waste and hazardous waste disposal sites and/or processing facilities and their location, design, configuration, and operation are appropriate at a particular location.

**2-02-03-02 APPLICABILITY**

All uses that require a certificate of designation must be processed in accordance with this section. A certificate of designation shall be required for all solid waste and hazardous waste disposal sites and/or processing facilities that may include, but not be limited to:

1. Sites and facilities where the collection, storage, treatment, utilization, processing, and/or final disposal of solid waste occurs except as specifically exempted;
2. Infectious waste treatment facilities;
3. Hazardous waste disposal sites;
4. Waste impoundment operations;
5. Commercial composting operations when meeting the Colorado Department of Public Health and Environment Regulations 6CCR 1007-2, Section 14;
6. Inert fills when meeting the criteria for a certificate of designation;
7. Construction and demolition landfills;
8. Scrap tire recycling facilities with an inventory of over ten thousand (10,000) processed and unprocessed scrap tires; or
9. Other sites or facilities not specifically mentioned herein as may be required by C.R.S. §§30-20-101, *et seq.*, C.R.S. §§25-15-101, *et seq.*, and C.R.S. §§25-15-201, *et seq.*

Only the Board of County Commissioners may, after recommendation of the Planning Commission, adopt a resolution approving a certificate of designation to locate in accordance with these standards and regulations. Only those uses that are authorized as permitted principal uses or conditional uses in a zone district may be approved. The designation of a use as a permitted principal use or conditional use does not constitute an authorization or an assurance that such a use will be approved.

**2-02-03-03 WHO CAN INITIATE A CERTIFICATE OF DESIGNATION REQUEST**

A certificate of designation may be requested by, without limitation, any owner or person having an interest in the property on which the facility requiring the certificate of designation is proposed to be located. The applicant has the burden of proof to demonstrate the use fully complies with these standards and regulations and meets the criteria for approval.

**2-02-03-04 CERTIFICATE OF DESIGNATION REVIEW PROCEDURES**

A certificate of designation may be approved by the Board of County Commissioners by resolution. Any proposed certificate of designation shall be processed through two (2) public hearings before the Planning Commission, which shall provide a recommendation to the Board of County Commissioners (See Steps 1 through 10 below). Upon completion of each hearing by the Planning Commission, the application for a certificate of designation and the recommendation of the Planning Commission shall be forwarded to the Board of County Commissioners. The Board of County Commissioners shall, after receiving a recommendation from the Planning Commission, hold a public hearing. The Board of County Commissioners shall then approve, approve with conditions, or deny the certificate of designation based on its consideration of the staff report, the Planning Commission's recommendation and findings, the evidence from the public hearings, and the certificate of designation's compliance with the criteria for approval.

**2-02-03-05 CERTIFICATE OF DESIGNATION REVIEW STEPS**

The processing of a proposed certificate of designation shall be according to, in compliance with, and subject to the provisions contained in Steps 1 through 10 of the Common Development Review Procedures as follows:

1. Conceptual Review: Applicable.
2. Neighborhood Meeting: Optional, unless the Director of Planning and Development determines the development proposal could have significant neighborhood impacts. A neighborhood meeting may be required prior to accepting an application for a certificate of designation at either or both stages of the review process including the initial application and upon submittal of the operations plan and technical report following review and approval, denial, or approval with conditions of the initial application.
3. Development Application Submittal: In the case of a certificate of designation, there shall be two (2) submittals. The first submittal shall be to determine preliminary findings of fact regarding use compatibility and siting impact issues. Following the determination of findings of fact regarding land use compatibility and siting impact issues, a second set of submittals shall be made to allow the review of the operations plan and technical report and approval or disapproval of the certificate of designation.
  - a. All items or documents required for a certificate of designation as described in the development application submittal requirements shall be submitted to the Director of Planning and Development at least fifty (50) days prior to the first unfilled Planning Commission public hearing agenda for the first submittal.

- b. All items or documents required for a certificate of designation as described in the development application submittal requirements shall be submitted to the Director of Planning and Development at least two hundred thirty (230) days prior to the first unfilled Planning Commission public hearing agenda for the second submittal.
4. Determination of Sufficiency: Applicable. No application shall be processed if any taxes due are not paid. Upon receipt of a written recommendation for approval from the Colorado Department of Health, public hearings on the operations plan and technical report shall be set before the Planning Commission and Board of County Commissioners. No hearings shall be set if the Colorado Department of Public Health and Environment recommends disapproval pursuant to C. R. S. 30-20-104, Section 3.
5. Staff Report: Applicable.
6. Notice: Applicable, except notice shall be sent to all property owners within fifteen hundred (1,500') feet in urban areas and one (1) mile in agricultural areas at a minimum, or greater, as determined by the Director of Planning and Development.
7. Public Hearing: Applicable. Two (2) sets of public hearings shall be held before both the Planning Commission and Board of County Commissioners. A hearing shall be held to review the certificate of designation's compatibility with land use and to make preliminary findings. A hearing shall also be held to review the operations plan and technical report.

The Director of Planning and Development may waive the public hearings to determine preliminary findings of fact regarding land use compatibility and siting impact issues of a proposal upon request of the applicant or with the applicant's concurrence, if the following determination is made:

- a. That due to the nature of the proposed operation, issues related to land use compatibility and siting impact cannot be separated from the information required in the operations plan and technical report; or
  - b. That due to the nature of the proposed operation, the operation plan and technical report is minor in nature and no public purpose would be served by separating the two (2) components of the request.
8. Standards: Applicable. At the first hearing concerning a certificate of designation, the Planning Commission shall conduct a preliminary fact finding and consider all relevant evidence regarding land use compatibility and site impacts concerning the application. This hearing shall include, but not be limited to, information of the impact on the surrounding land uses, access and traffic impact, conformance with requirements of these standards and regulations, and conformance with policies of the Adams County Comprehensive Plan. At such hearing, the Planning Commission

shall forward a recommendation in the form of recommended findings of fact to the Board of County Commissioners as to whether or not the proposed land use is in accordance with the criteria. The Board of County Commissioners shall then conduct a preliminary fact finding public hearing and consider all relevant evidence regarding land use compatibility and site impacts concerning the application. If the Board of County Commissioners finds the proposed land use is not in accordance with the criteria, it shall make a finding of fact, and such findings may be the basis of a denial at future hearings should the applicant wish to proceed with the remainder of the permitting process.

After receiving the operations plan and technical report submittal and completing Steps 1 through 7, the Planning Commission shall forward a recommendation of disapproval, approval, or approval subject to conditions, to the Board of County Commissioners of the certificate of designation. The Board of County Commissioners shall then conduct a public hearing. The Board of County Commissioners may approve the request, in whole or in part, with or without modifications and requirements, or deny the request. Approval, if given, shall not be in conflict with the Colorado Department of Health's recommendation, but the Board of County Commissioners may impose any additional requirements or conditions it deems necessary to meet the purpose and intent of these standards and regulations.

9. Conditions of Approval: Applicable. The Board of County Commissioners in approving a certificate of designation may attach any conditions necessary to implement the Adams County Comprehensive Plan and ensure compatibility with adjacent uses or protect the environment. The Board of County Commissioners in approving a certificate of designation may impose any additional requirements or conditions it deems necessary to meet the purpose and intent of these regulations, which may include, but are not limited to, the following:
  - a. A requirement to ensure the facility development proceeds in accordance with a specific site plan and/or development schedule;
  - b. A requirement of public dedication of rights-of-way for roads, alleys, public ways, drainage and public facilities, and the installation of off-site improvements as are reasonably required by or related to the effect of the facility; or
  - c. A requirement to ensure design and mitigation measures be put in place including, but not limited to, limits on the hours of operation and traffic generating uses; improvements to on-site and off-site vehicular circulation; alternative access or site and open space provisions to address site capacity and resource protection issues; controls on noise, light, odors, and other pollutants; construction of fencing and planting of landscaping; restrictions on signage and outdoor lighting;

restrictions concerning the building bulk, height, setback, location, and external appearance; stipulations concerning adequate storm drainage or utilities; and limits on the duration of the certificate of designation.

10. Amendments: Applicable. In addition, the following shall be considered in determining if the change is a minor or major amendment:

a. Amendments and Changes to Solid Waste Disposal Sites and/or Processing Facilities.

(1) State Review of Type of Change:

(a) A determination as to the type of the change under State regulations shall be made. The proposed change shall be referred to the Colorado Department of Health for a finding of fact as to whether or not the proposed change constitutes a significant change with regard to State regulations.

(b) The State will be afforded a twenty (20) working day period in which to respond. Upon receipt of a determination from the State as to the type of the change, the applicant will be advised of the determination and whether additional information is needed to complete the technical review of the change.

(c) If the State does not respond with a determination as to whether the change is significant or not within twenty (20) working days, the County may proceed based upon its own determination.

(2) County Review of Type of Change:

A determination shall be made as to the nature of the change with regard to County requirements as listed in the certificate of designation and with regard to potential impact on neighboring properties, the general public, or those intended to occupy or use the non-hazardous disposal site and/or processing facility. This determination shall be made by the Director of Planning and Development. The change shall fall into one (1) of the following categories:

(a) Minor:

A minor change from the permit (including approved plans) is one, which will have no discernible impact or will have limited impact on neighboring properties, the

general public, or those intended to occupy or use the site and facility. No change which has been determined by the State to be a “significant change” under State regulations shall fall into this category. Minor changes are routine in nature. They may include, but are not limited to, corrections of typographical errors in the approved permit; equipment replacement or upgrading with functionally equivalent components; increased frequency in monitoring or maintenance activities; closure of the facility at an earlier than permitted date; changes in information listed in facility contacts or coordinators listed in the plan; replacement of a monitoring facility which has been damaged or rendered inoperable without change in location, design, or depth; changes in the site plan which provide for more efficient operations on site but have no impact on operation methods or the surrounding area. A change to allow additional elements in the wastestream may be determined to be minor provided the waste is not specifically prohibited by the permit, is a common variation in the type and quantity of the waste managed under the facility permit, and does not require a change in methods of operation, additional monitoring to assure public health requirements are met, nor result in a change in reclamation of the site. These items are listed as illustrations and are not intended to be all-inclusive.

Another type of minor change is a change necessary to comply with new regulations, where these changes can be implemented without substantially changing design specifications or management practices in the permit.

(b) Major:

A major change from the permit (including approved plans) is one which has been determined to potentially have a significant impact on neighboring properties, the general public, or those intended to occupy or use the waste disposal site and facility. Changes which have been determined to be a “significant change” under State regulations shall fall into this category. They would include, but are not limited to, change in ownership of the facility, extension of the certificate’s duration, changes in the site plan which reduce or change the character of approved buffering, reduction in quantity or

quality of monitoring (unless such change is mandated by regulatory requirements), or change in a specific condition, standard, or requirement of the Board of County Commissioners' approval which would change the character of the facility or substantially increase the intensity of use. A change which allows additional elements in the wastestream which are prohibited by the permit, requires a change in the operations plan or the approved reclamation plan, or allows a waste which is not a common variation in the type and quantity of the waste managed under the facility permit, is a major change. These items are listed as illustrations and are not intended to be all-inclusive.

(3) State Review of the Substance of the Request:

If the State recommends:

(a) Approval of a significant change: See Section 4 (below).

(b) Disapproval of a significant change:

If the Colorado Department of Health recommends disapproval of the requested significant change, no public hearings shall be set. The request shall be denied.

(c) Approval of a non-significant change: See Section 4 (below).

(d) Disapproval of a non-significant change: If the Colorado Department of Health recommends disapproval of the requested non-substantial change, the request shall be denied.

(e) No comment within the review period on a non-significant change: If the State does not respond with a recommendation on the requested change as to whether the change is approved or not within sixty (60) calendar days, the County may proceed based upon its own determination. The applicant shall be advised that it is the operator's responsibility to ensure the minimum standards of the Solid Waste Disposal Sites and Facilities Act, C.R.S. §§30-20-101, *et seq.* have been met.

(4) County Review of the Substance of the Request:

(a) If the Colorado Department of Health recommends approval of a non-significant change, and the change is a minor change as

determined by the Director of Planning and Development, then the Director may approve the request with conditions determined necessary to assure the intent of these Regulations is met. If the Director of Planning and Development denies the request, the applicant may apply for a change in accordance with the procedure for a major change.

- (b) If the Colorado Department of Health recommends approval of a significant or non-significant change, and the change is a major change as determined by the Director of Planning and Development, the review procedure as established in the Review Step 7 to Review the Operations Plan and Technical Report shall be followed. The request shall be evaluated in accordance with the Criteria for Approval.
- b. Information Requirements for an Amendment (major change) to a Solid Waste Disposal Site and Facility:
- (1) Application form and a review fee in accordance with a schedule established by the Board of County Commissioners as provided for in C.R.S. §30-20-103, as amended.
  - (2) Plans and written narrative which clearly describe the changes requested and their effect on the operation of the facility and the surrounding area.
  - (3) Provision of any other relevant information required by the Director of Planning and Development in order to assure there is adequate information to review the amendment.
- c. Amendments or Substantial Changes and Modification to Hazardous Disposal Sites:
- (1) For hazardous waste disposal sites, an amendment to the certificate of designation is required for all changes except for changes in:
    - (a) On-site operations.
    - (b) On-site monitoring requirements.
    - (c) Changes as described above in (a) and (b) are subject to regulation by the Colorado Department of Health pursuant to C.R.S. §§25-15-301, *et seq.*, and are not subject to County review unless it is a substantial change. Substantial changes require County approval pursuant to C.R.S. §25-15-206.

- (2) Procedures for Review of Amendments to a Certificate of Designation for Hazardous Waste Disposal Sites:
- (a) The proposed amendment or substantial change shall be referred to the Colorado Department of Health for a finding of fact as to whether or not the proposed amendment constitutes a substantial change, as defined in the rules and regulations promulgated by the Colorado Department of Health. The State will be afforded a twenty (20) working day period in which to respond. Upon receipt of a determination from the State as to the type of the change, the applicant will be advised of the determination and whether additional information is needed to complete the technical review of the change. If the State does not respond with a determination as to whether the change is substantial or not within twenty (20) working days, the County may proceed based upon its own determination.
  - (b) After receipt of the Colorado Department of Health’s finding of fact or upon determination of staff that the required State review period has expired, a public hearing shall be set. Staff shall appear before the Board of County Commissioners during a public hearing and present relevant testimony concerning whether or not any proposed changes constitute a substantial change.

The Board of County Commissioners shall make a finding of fact based upon staff’s testimony and recommendations of the Department of Health.

If the Board of County Commissioners finds that the proposed amendment constitutes a substantial change, public hearings shall be set in accordance with the procedures defined in Step 7 and the findings required by the Criteria for Approval.

If the Board of County Commissioners finds that the proposed amendment does not constitute a substantial change, no public hearings shall be set. A decision on changes determined to not be substantial is made by the Colorado Department of Health in accordance with State regulatory requirements and applicable State statutes.

- (c) If the recommendation of the Colorado Department of Health is denial, no public hearing shall be set and the request shall no longer be considered.
- d. Information Requirements for an Amendment or Substantial Change to a Hazardous Waste Disposal Site:
- (1) Application form and a fee of ten thousand dollars (\$10,000);
  - (2) Plans and written narrative which clearly describe the changes requested and their effect on the operation of the facility and the surrounding area; and
  - (3) Provision of any other relevant information required by the Director of Planning and Development in order to assure there is adequate information to review the amendment.

#### 2-02-03-06 **CRITERIA FOR APPROVAL**

An urban renewal plan, urban renewal project, or urban renewal area may include unincorporated territory that is outside the boundaries of a municipality but contiguous to a portion of the urban renewal area located within the municipality. No such territory shall be included in the plan, project, or area without the consent of the Board of County Commissioners and the consent of each owner of, and each holder of a recorded mortgage or deed of trust encumbering, real property within the unincorporated area proposed for inclusion

All urban renewal plans approved for land within unincorporated Adams County must be processed in accordance with this section. The Board of County Commissioners may, after recommendation of the Planning Commission, adopt an urban renewal plan. This process shall be applicable to land within unincorporated areas only. Lands that have been annexed into municipalities shall only be subject to the applicable sections of the local municipal codes and Colorado state law.

### 2-02-09-03 WHO CAN INITIATE THE ADOPTION OF AN URBAN RENEWAL PLAN

The adoption of an urban renewal plan may be proposed, without limitation, by the Planning Commission, the Board of County Commissioners, or the owner(s) of the property to be included.

In addition, a municipality or urban renewal authority may propose an urban renewal plan.

No area that has been designated as an urban renewal area shall contain any agricultural land unless:

- The agricultural land is a brownfield site;

- Not less than one-half of the urban renewal area as a whole consists of parcels of land containing urban-level development that, at the time of the designation of such area, are determined to constitute a slum or blighted area, or a combination thereof, in accordance with state statute and not less than two-thirds of the perimeter of the urban renewal area as a whole is contiguous with urban-level development as determined at the time of the designation of such area;
- The agricultural land is an enclave within the territorial boundaries of a municipality and the entire perimeter of the enclave has been contiguous with urban-level development for a period of not less than three years as determined at the time of the designation of the area;
- Each public body that levies an ad valorem property tax on the agricultural land agrees in writing to the inclusion of the agricultural land within the urban renewal area; or
- The agricultural land was included in an approved urban renewal plan prior to June 1, 2010.
- Or as otherwise allowed by state statute.

Where an authority intends to acquire private property by eminent domain within the urban renewal area to be subsequently transferred to a private party in accordance with the requirements of section 31-25-105.5 (2), the governing body, prior to the commencement of the acquisition of such property, shall first hold a public hearing on the use of eminent domain as a means to acquire such property after written notice of the time, date, place, and purpose of the hearing has been provided to each owner of property within the urban renewal area at least thirty days prior to the date of the hearing. In order to authorize the use of eminent domain as a means to acquire property, the Board of County Commissioners shall base its decision on such authorization on a finding of blighted or slum conditions without regard to the economic performance of the property to be acquired

#### **2-02-09-04 URBAN RENEWAL PLAN PROCEDURES**

Any proposed modification for lands within Unincorporated Adams County shall be submitted to the Board of County Commissioners, the applicable urban renewal authority, and the City Council of the applicable municipality for a resolution as to whether or not such modification will substantially change the urban renewal plan in land area, land use, design, building requirements, timing, or procedure, as previously approved, and, if it finds that there will be a substantial change, its approval of such modification shall be subject to the requirements of this section. A modification shall be approved by the Board of County Commissioners, the City Council of the applicable municipality, and the applicable urban renewal authority.

**2-02-10      *PLANNED UNIT DEVELOPMENT***

**2-02-10-01      *PURPOSE / OBJECTIVES***

The purpose of this section is to detail the steps for obtaining a Zoning Map amendment for a Planned Unit Development (P.U.D.) which may or may not involve a division of land. The Standard P.U.D. process requires a minimum of two (2) approvals prior to development of a site, a Preliminary Development Plan (PDP) and Final Development Plan (FDP).

In accordance with the Planned Unit Development Act of 1972, the objective of a Planned Unit Development is to establish an area of land, controlled by one or more landowners, to be developed under unified control or unified plan of development for a number of dwelling units, commercial, educational, recreational, or industrial uses, or any combination of the foregoing, the plan for which does not correspond in lot size, bulk, or type of use, density, lot coverage, open space, or other restriction to the existing land use regulations.

**2-02-10-01-01      *PRELIMINARY DEVELOPMENT PLAN (PDP)***

The Preliminary Development Plan establishes vested rights to develop a property in accordance with the plan. Approval of a PDP does not allow for construction. Minor site preparation may be allowed as determined by the Director of Planning and Development. The PDP should include the proposed land uses, the layout of landscaping, circulation, architectural elevations, buildings and, if required, a preliminary plat.

**2-02-10-01-02      *FINAL DEVELOPMENT PLAN (FDP)***

The Final Development Plan is the site specific development plan which describes and establishes the type and intensity of uses for a specific parcel or parcels of land. The Final Development Plan includes a final subdivision plat, development agreement, and utility plan, as well as any detailed engineering that may be required. Approval of a FDP establishes a vested right to develop property in accordance with the plan.

**2-02-10-01-03      *OVERALL DEVELOPMENT PLAN (ODP)***

For P.U.D. Zoning Map amendments involving two (2) or more separate Preliminary Development Plans, an Overall Development Plan is also required for review and approval prior to submittal of the first Preliminary Development Plan. The Overall Development Plan establishes general planning and development control parameters for projects developed in phases with multiple submittals while allowing sufficient flexibility to permit detailed planning in subsequent submittals. Approval of an ODP does not establish any vested right to develop a property in accordance with the plan.

Each successive development application builds on the previously approved application by providing additional details and meeting additional restrictions and standards.

2-02-10-02 **OVERALL DEVELOPMENT PLAN (ODP)**

2-02-10-02-01 **PURPOSE**

The purpose of this section is to detail the steps for establishing general planning and development control parameters for projects developed in phases with multiple submittals while allowing sufficient flexibility to permit detailed planning in subsequent submittals. 5. The ODP is consistent with any applicable drainage plans.

6. The ODP allows for the regulation of use and development of land and buildings where specific issues or concerns must be mitigated due to unusual and unique circumstances; or where alternative design concepts are desired; or are necessary to mitigate specific conditions.

2-02-11 **SPECIAL USE PERMIT**

2-02-11-01 **PURPOSE**

The purpose of this section is to detail the steps for obtaining a special use permit. Special uses are those uses which are non-permanent (less than five (5) years, except for oil and gas drilling and production facilities) and often support other land uses authorized or permitted in a zone district or public utilities or services, or oil and gas drilling and production facilities, but which, because of their potential zone impacts require more discretionary review than those uses which are authorized. In addition to meeting applicable performance standards, special uses may require the imposition of conditions in order to ensure the number of special uses and their location, design, and configuration are appropriate at a particular location during the duration of operation or use in order to protect the health, safety and welfare of the County and inhabitants of the area.

With respect oil and gas drilling and production, the purpose of a special use permit is to protect the health, safety, and welfare of Adams County residents, to provide for sound environmental practices through the control of all oil and gas operations in the unincorporated areas of Adams County, and for the orderly development of oil and gas operations as well as to prevent damage to County roads and bridges.

The Colorado Oil and Gas Conservation Commission (COGCC) and the federal government have authority to regulate certain aspects of oil and gas regulations. Requirements contained in this section shall not exempt the owner or operator of an oil and gas facility from compliance with the requirements of the COGCC.

These regulations are not intended to create and are not to be applied so as to cause an operational conflict with the COGCC's exercise of its authority over oil and gas operations.

The provisions of these standards and regulations shall apply to the construction, installation, alteration, repair, erection, location, maintenance, and abandonment of any gas and/or oil well or appurtenance structures within the unincorporated areas of the County.

**2-02-11-02      APPLICABILITY**

**2-02-11-03      WHO CAN INITIATE A SPECIAL USE PERMIT REQUEST**

The term of a special use permit shall be limited to the absolute minimum term necessary for the proposed use, but in no case shall exceed five (5) years unless in the case of oil and gas drilling and production facilities. The term of a special use permit for oil and gas drilling and production facilities shall expire upon plugging, abandonment, and final reclamation of the location in accordance with the regulations of the COGCC. **2-02-17      *SUBDIVISION, MAJOR***

**2-02-17-01      *PURPOSE***

The purpose of this section is to detail the steps for obtaining approval to develop a major subdivision. All major subdivisions are required to obtain two (2) approvals prior to development of a site.

The first approval required is an approval of the preliminary plat. The preliminary plat provides an in-depth analysis of the proposed subdivision, including a refinement of the design considering the geologic hazards, environmentally sensitive areas, source of required services, vehicular/pedestrian circulation, and the relationship to surrounding land uses.

The second approval required is an approval of the final plat. The final plat provides a review of all final engineering plans, subdivision improvements agreements, and other legal requirements.

For more complicated subdivision proposals, the sketch plan approval may be obtained prior to submission of an application for preliminary plat. The sketch plan is a conceptual plan analysis of the feasibility of the subdivision including conceptual design, ability to obtain water/sanitation, location of geologic hazards, identification of environmentally sensitive areas, sources of required services, vehicular and pedestrian circulation, relationship to surrounding land uses, and conformance with zoning, design standards, and the Adams County Comprehensive Plan.

Each process involves the submittal of an application, an application fee, required plans and reports, referrals of the proposal to other agencies, staff analysis and meetings with staff or public hearings/meetings. Each successive application builds on the previously approved application by providing additional details and by meeting additional restrictions and standards. This progression relieves the applicant from major and potentially unnecessary expenses in situations that may require a redesign and therefore, a revision of expensive engineering or planning reports. Approval at any step in the process does not ensure approval at the next step.

The sketch plan shall be reviewed by the Director of Planning and Development and Director of Public Works with written staff analysis provided, prior to submittal of the preliminary plat. The preliminary plat shall be reviewed by the Planning Commission and the Board of County Commissioners at a public hearing. The final plat shall be reviewed by the Board of County Commissioners at a public meeting. The final plat may not be submitted prior to the preliminary plat approval.

A preliminary plat shall be approved by the Board of County Commissioners. Any preliminary plat shall be processed through a public hearing before the Planning Commission, which shall provide a recommendation to the Board of County Commissioners (See Steps 1 through 10 below). Upon completion of a hearing by the Planning Commission, the preliminary plat and recommendation of the Planning Commission shall be forwarded to the Board of County Commissioners. The Board of County Commissioners shall, after receiving a recommendation from the Planning Commission, hold a public hearing. The Board of County Commissioners shall then approve, approve with conditions, or deny the preliminary plat based on consideration of the staff report, the Planning Commission's recommendation and findings, the evidence from the public hearings, and the preliminary plat's compliance with the criteria for approval.

The processing of a preliminary plat shall be according to, in compliance with, and subject to the provisions contained in Steps 1 through 10 of the Common Development Review Procedures as follows:

### **2-02-17-04-01 PURPOSE**

The purpose of this section is to detail the steps and requirements for a review of all final engineering plans, subdivision improvements agreements, and other legal requirements for platting a major subdivision. Approval of a final plat establishes a vested right to develop property in accordance with the plan.

### **2-02-17-04-02 APPLICABILITY**

A final plat shall be required for any property intended to be subdivided.

### **2-02-17-04-03 WHO CAN INITIATE A FINAL PLAT**

A final plat may be proposed by, without limitation, the owner(s) of, or person having an interest in the property to be subdivided. A final plat may only be submitted if a preliminary plat for the subject property has been approved. The final plat shall conform to the preliminary plat.

The applicant has the burden of proof to demonstrate the final plat fully complies with these standards and regulations and meets the criteria for approval.

### **2-02-17-04-04 FINAL PLAT REVIEW PROCEDURES**

A final plat shall be approved by the Board of County Commissioners by resolution. Any final plat shall be processed through a public meeting before the Board of County Commissioners (See Steps 1 through 10 below). The Board of County Commissioners shall then approve or deny the final plat based on its consideration of the staff report, the evidence from the public meeting, and the final plat's compliance with the criteria for approval.

The processing of a final plat shall be according to, in compliance with, and subject to the provisions contained in Steps 1 through 10 of the Common Development Review Procedures as follows:

1. Conceptual Review: Not applicable.
2. Neighborhood Meeting: Not applicable.

3. 4. Determination of Sufficiency: Applicable. No application shall be processed if any taxes due are not paid.
5. Staff Report: Applicable.
6. Notice: Not applicable.
7. Public Hearing: Applicable. A public hearing shall be held before the Board of County Commissioners. This item would be listed on the consent calendar. However, the Board of County Commissioners may take testimony from the public at the public hearing.

10. Amendments: Applicable.

2-02-17-04-05

***CRITERIA FOR APPROVAL***

The Board of County Commissioners, in approving a final plat, shall find:

1. The final plat is consistent and conforms to the approved preliminary plat.
2. The final plat is in conformance with the subdivision design standards.
3. The applicant has provided evidence that a sufficient water supply has been acquired in terms of quantity, quality, and dependability for the type of subdivision proposed, as determined in accordance with the standards set forth in the water supply standards.
4. The applicant has provided evidence that a public sewage disposal system has been established and, if other methods of sewage disposal are proposed, adequate evidence indicating that the system complies with state and local laws and regulations.
5. The applicant has provided evidence to show all areas of the proposed subdivision, which may involve soil or topographical conditions presenting hazards or requiring special precautions, have been identified by the applicant and the proposed uses of these areas are compatible with such conditions.
6. The proposed or constructed drainage improvements are adequate and comply with these standards and regulations.

7. Adequate public facilities or infrastructure, or cash-in-lieu, for impacts reasonably related to the proposed subdivision have been constructed or financially guaranteed through cash-in-lieu or a subdivision improvements agreement so the proposed subdivision will not negatively impact the levels of service of the County.

**2-02-17-04-06      *ACTION BY THE DIRECTOR OF PLANNING AND DEVELOPMENT FOLLOWING APPROVAL***

Upon final approval and fulfillment of all requirements of the Board of County Commissioners, the Director of Planning and Development shall cause to have filed in the Office of the Adams County Clerk and Recorder the final plat and subdivision improvements agreement.

**2-02-18      SUBDIVISION, MINOR**

**2-02-18-01      PURPOSE**

The purpose of this section is to detail the steps for obtaining approval to develop a minor subdivision. A minor subdivision shall only be used to divide parcels of less than twenty (20) acres into four (4) or fewer lots. All minor subdivisions are required to obtain two (2) approvals prior to development of a site.

The first required approval is an approval of the sketch plan. The sketch plan is a conceptual plan analysis of the feasibility of the subdivision including conceptual design, ability to obtain water/sanitation, location of geologic hazards, identification of environmentally sensitive areas, sources of required services, vehicular and pedestrian circulation, relationship to surrounding land uses, and conformance with zoning, design standards, and the Adams County Comprehensive Plan.

The second required approval is an approval of the final plat. The final plat provides a review of all final engineering plans, subdivision improvements agreements, and other legal requirements.

An Applicant may also choose to process a minor subdivision in the same manner as a major subdivision and the process shall follow Section 2-02-16-03. Each process involves the submittal of an application, an application fee, required plans and reports, referrals of the proposal to other agencies, staff analysis and meetings with staff or public hearings/meetings. The final plat application builds on the previously approved application by providing additional details and by meeting additional restrictions and standards. This progression relieves the applicant from major and potentially unnecessary expenses in situations which may require a redesign, and, therefore, a revision of expensive engineering or planning reports. Approval at any step in the process does not ensure approval at the next step.

The sketch plan shall be reviewed by the Director of Planning and Development and Director of Public Works with written staff analysis provided, prior to submittal of the final plat. The final plat shall be reviewed by the Planning Commission and Board of County Commissioners at a public hearing. The final plat may not be submitted prior to obtaining a sketch plan approval.

If significant issues are identified or disclosed during the sketch plan process, including, but not limited to, public opposition, the applicant may choose to have the minor subdivision processed as a major subdivision. Where issues appear to be significant or public opposition to a subdivision is substantial, the applicant is advised that by filing a preliminary plat, the applicant may avoid the unnecessary expense in completing final engineering where final plat approval is less certain. If the applicant chooses to have the proposed minor subdivision processed as a major subdivision, the applicant shall submit a preliminary plat in conformance with the requirements of the major subdivision process.
