MEMORANDUM

USR2019-00001 Administrative Memo

Date: April 23, 2019

Request: A Use by Special Review Permit to allow twenty-six (26) horizontal well on one (1) well pad for the production of oil and natural gas and one (1) production facility.

Address: Section 15, Township 1S, Range 65W, Parcel number 0156715400001

Zoning Designation: Agriculture-3 (A-3)

Future Land Use Designation: Agriculture

Applicable regulations Section of the Development Standards and Regulations:

Per Section 4-10-02-05-09 of the County's Development Standards and Regulations, the Administrative Use by Special Review (AUSR) permit for an oil and gas facility shall automatically include as conditions of approval all provisions of the MOU executed by the applicant.

Conformity with Development Standards and Regulations:

The conditions of approval included in the AUSR permit allow the oil and gas facility to satisfy the Compatibility requirement of the Administrative Approval Criteria (Section 4-10-02-05-02).

Referral Comments/Concerns:

Of the sixty-eight (68) referral notices sent to property owners and current residents located within one-half mile of the subject parcel boundary, five comments were received. The application and Request for Comments were also posted on the Adams County website for review by the public. The concerns presented by the residents include health impacts, environmental impacts, safety, and property values. These concerns have been addressed by the applicant, the COGCC Rules, the Adams County Development Standards and Regulations, and the Conditions of Approval attached to this application.

Recommended Conditions of Approval

Conditions Precedent:

1. Pad construction and/or drilling shall not commence until State approval of Colorado Oil and Gas Conservation Commission (COGCC) Form 2 and 2A. Drilling shall only occur during the COGCC Form 2 permit validity timeframe.

- a. Per Section 4-10-02-03-03-07-10 of the Adams County Development Standards and Regulations, proposed changes to the plans, including but not limited to, any changes in the source or location of water to be used by the Oil and Gas Facility, shall be submitted as amendments to the Administrative Use by Special Review application, reviewed by staff, and approved by the Director or BOCC (if the BOCC approved the original application).
2. Noise mitigation measures will be required to provide compatibility with the surrounding area; therefore a Sound Impact Assessment must be conducted and the operator will be required to implement the best management practices identified from the study to meet COGCC Rule 802 Noise Abatement and the MOU Section 9.
3. A traffic impact fee in the amount of \$549,665.00 for the construction and production of twenty-six (26) oil and gas wells using product pipelines is due prior to ground disturbing activities.
4. The applicant shall receive a "Notice to Proceed" from the Community and Economic Development Department. Written proof that all conditions precedent have been satisfied shall be required prior to receiving this notice.

Conditions:

1. Great Western is required to provide notice to parcel owners and occupants located within a one-half (1/2) mile radius of the parcel boundary on which the well pad is located at least fourteen (14) days prior to the commencement of any drilling or completions operations.
2. As referenced in 8.(c.) of the Great Western Oil and Gas/Adams County MOU the applicant agrees to conduct a baseline test of any registered water well requested by the owner, on a one-time basis, if such well is within a ½ mile radius of the new oil and gas facility.
3. The applicant or the applicant's subcontractors may be required to obtain Oversize Load Permits, and/or Access Permits, and/or a Right-of-Way Construction Permit. These permits may be obtained from Adams County. The applicant or the applicant's subcontractors may also be required to obtain Oversize Load Permits from the City of Thornton for travel on 168th Avenue. Those permits will be provided by the City of Thornton if required.
4. Per Section 12 of the executed MOU, Great Western will construct the lease/access road to be capable of supporting a 75,000-pound emergency response vehicle. The access road to this site shall be outfitted with a vehicle tracking pad

5. The applicant shall be responsible for the cleanliness and safety of all roadways adjacent to this site. If at any time, Adams County staff determines these roadways to be dangerous or not passable due to debris or mud, the applicant will cease use of the roadways until the roadway conditions have improved and are deemed acceptable by the County. If the contractor/applicant fails to keep the adjacent roadways clean and free from debris, Adams County has the option to complete the required clean up and bill the charges directly to the applicant, Great Western.
6. Per Section 14 of the executed MOU, fresh water as referenced in the COGCC's rules and Regulations, or another source as approved by the County on a case by case basis, may be applied to roads and land surfaces for purpose of dust mitigation. Absolutely no other liquid or substance generated by the production of the operator's facility, including, but not limited to, exploration and production waste (as defined by the COGCC) or any other application of liquids that would have negative impact to natural resources, shall be permitted to be applied to roads and land surfaces.
7. Per Section 5 of the executed MOU, in an effort to reduce truck traffic, where feasible, the Operator will identify a water source lawfully available for industrial use, including oil and gas development, close to the facility location, to be utilized by operator and its suppliers. Operator will comply with the Colorado Department of Public Health and Environment requirements and Tri-County Health Department (TCHD) regulations concerning water quality. With respect to wastewater treatment, Operator agrees to comply with TCHD's Regulations NO O-14, On-site Wastewater Treatment Systems, as adopted or modified. The Operator agrees to contact TCHD in a timely manner to arrange for the processing of appropriate application matters and required inspections.
8. The approved traffic route for traveling to and from the site will be as follows:

Primary Route 1 (To Site)

1. Direct access off of Interstate 25 to Highway 7.
 2. Highway 7 east to 168th Avenue
 3. 168th Avenue east to Colorado Boulevard
 3. Colorado Boulevard south to the access road
- *Egress from the site will be the same route in reverse order.

Primary Route 2 (To Site)

1. Access road to Colorado Boulevard
 2. Colorado Boulevard north to 168th Avenue
 2. 168th Avenue east to Highway 85
- *Egress from the site will be the same route in reverse order.

Alternative Route (To Site)

1. Interstate 25 to Summit Boulevard (Weld County) Exit 232
2. Interstate 25 to Interstate 25 Frontage Road
3. Interstate Frontage Road south to Weld County Route 6

4. Weld County Route 6 east to Country Road 13/Colorado Boulevard
 5. Country Road 13/Colorado Boulevard south to the access road
- *Egress from the site will be the same route in reverse order.

9. Great Western intends to transport oil from the RIO well pad via pipeline. Connection to the pipeline is planned to be completed by a 3rd party prior to production of oil. In the event that the 3rd party produced oil pipeline is temporarily out of service, Great Western is permitted to store produced oil on site. Under these circumstances Great Western may truck oil from the site for a short period of time. If it is estimated that the pipeline downtime will be less than 7 calendar days, Great Western will provide Adams County with a written notice which includes an estimate of the number of trucks, length of time trucking will occur, and the truck route that will be required for transporting the produced oil prior to trucking operations beginning. If it is estimated that pipeline downtime will go beyond 7 calendar days, Great Western will provide Adams County with a written notice which includes an estimate of the number of trucks, length of time trucking will occur, and the truck route that will be required for transporting the produced oil. Adams County agrees to provide a written decision no later than 72 hours after receipt of a request for the use of trucks for the transportation of oil for more than 7 calendar days. Adams County cannot deny the request without reasonable cause. Adams County reserves the right to re-evaluate the Traffic Impact and Maintenance Fee based on the information provided by Great Western if the estimated trucking time is more than 30 calendar days when requesting to transport produced oil via trucks.
10. Prior to initiation of production, the applicant will submit to the county written certification that the facility is connected to a pipeline for the transfer of product off-site.
11. The applicant has submitted a landscaping and screening plan for the site, which has been reviewed and approved by the Community & Economic Development Department staff. Screening of the site shall be provided in accordance with the approved landscape plan by a combination of fencing and landscape materials. This plan shall serve as the interim restoration plan and it shall be implemented by the applicant within ninety (90) days of completion of the construction of the final well, if all twenty-six (26) approved wells are drilled and completed at the same time. If that applicant staggers well completion (i.e., completes a lesser number of wells initially with plans to complete the remaining wells at a future date), then the interim restoration plan shall be implemented within ninety (90) days of completion of the initial set of wells. Maintenance of required landscaping and fencing shall be in compliance with the Adams County Development Standards and Regulations at all times.
12. If requested by the surface owner, or practicable for site security, the fence shall contain a gate and the gate shall remain closed and locked when the well pad and associated facilities are not in use.

- a. The local fire district shall have access to ALL gate key(s)/combination(s) at all times for use in case of emergency.
 - b. Adams County oil & gas inspector shall have access to ALL gate key(s)/combination(s) at all times for use in case of emergency.
13. Applicant is required to receive an approved waiver of responsibility/completion of reclamation from Adams County upon abandonment and reclamation of well pad and associated facilities.
14. Well pad, associated facilities, and access road shall be free of any county and state identified noxious weeds throughout the drilling, completion and production portions of operations.
15. Prior to site development, an on-site investigation shall be performed to determine the presence of migratory bird nests within the project area, if construction is scheduled to occur within the nesting season (i.e. March 15th through July 15th).
16. To prevent impacts to wildlife, the operator shall regularly inspect trenches and open areas for the presence of wildlife and cover all open trenches at the end of each workday during construction.
17. Upon request by the County's Local Government Designee, Emergency Manager, Local Emergency Planning Commission, Sherriff's Office, site-specific Fire District, or Transportation Department, a tabletop exercise pertaining to the Emergency Response Plan will be required.
18. Per COGCC Section 604.c (4) B. IV. Zero Flaring or venting of gas upon completion of flowback, excepting upset or emergency, or with prior written approval from the COGCC Director for necessary maintenance operations.
 - a. The applicant shall provide a copy of written COGCC Director approval to the CEDD Director within 24 hours of flaring operations and/or approval, whichever occurs first.
19. All permanent lighting shall be directed downward and internally. Temporary lighting shall conform to COGCC Rule 803 and not adversely affect adjacent residential properties. Any complaints regarding lighting shall be communicated to the Adams County Oil & Gas Liaison in order to ensure resolution.
20. Provided at least one well is drilled and completed within a three (3) year period following approval of a multi-well pad locations, such approval permanently vests the permitted location for the number of wells as contained within the initial permit approval. If additional wells are to be drilled following expiration of the initial three (3) year period, the permits for those wells shall be revised pursuant to the Development Standards and Regulations section 4-10-02-03-03-07-07(3).

21. All representations and commitments of the applicant made during the AUSR process are incorporated herein as conditions of approval.

Based on the criteria for Approval outlined in Section 4-10-02-05-02 of the County's Development Standards and Regulations, the Director officially issues an **Approval of the request.**

A handwritten signature in black ink, appearing to read "Bryan Ostler", with a long, sweeping horizontal stroke extending to the right.
