Report Date	Operator	Pad Name	Complaint	Resolution
11/6/2017	Ward Petroleum	Schaefer	Two complaints were filed due to seismic like activities that were being felt by residents near the well pad.	The site was in "upset conditions" which was resolved by the operator adjusting their operating pressures. No additional seismic activities have been experienced. No releases resulted from the site conditions.
9/14/2017	Ward Petroleum	Schaefer	The complaint was about flaring and seismic activity impacting the Little Valley Wholesale Nursery.	A COGCC inspector conducted a noise study and found the site was not compliant with COGCC rule 802.d which regulates noise. The operator turned off a fan for the Emissions Control Device (ECD) which brought the facility back into compliance.
11/27/2017	Ward Petroleum	Schaefer	The complaint was for seismic activity and was filed by Little Valley Wholesale Nursery	According to the complaint form, filed by a COGCC inspector the Site was in upset condition prior to the inspector responding. The Inspector spoke with complainant who has stated that the vibration has not occurred since the upset condition was brought under control. Ward has changed the Vapor Recovery Unit to handle a different pressure load.
1/19/2018	Ward Petroleum	Riverdale	The complaint was for noise and light impacting a nearby resident. COGCC inspector responded to the complaint and provided the following information; A pipeline company was observed in the area installing a pipeline. A representative with the company stated that they experience a freeze the night prior and had to work late as a result.	The issue was addressed and no further complaints have been received.

2/28/2018	Extraction	Alma	A complaint was received by the COGCC with concerns about noise, vibrations, odors, and road damage. The COGCC responded to the complaint and included Adams County to assist with the concerns specific to road conditions, which is outside of the COGCC's jurisdiction.	The COGCC responded to the complaint and will provide a report of their findings. Adams County inspected the road conditions and found the road to be in satisfactory condition. Extraction has a road maintenance agreement for a portion of the road in question so Adams County will continue to work with Extraction to ensure regular maintenance of the road, including the implementation of dust mitigation.
4/27/2018	Renegade Oil and Gas	THORNBURG	A complaint was received by the COGCC with concerns about well production and royalties	The COGCC responded to the complaint and determined no GOCC rules were violated.
5/11/2018	Great Western	Ocho	A complaint was received by the COGCC with concerns about noise and lights.	The COGCC responded to the complaint and was unable to verify noxious odors, the Rig Lights were properly angled inward to the site, and the continuous sound study showed no violations of COGCC rules.
5/22/2018	Petroshare	Shook	A complaint was received by the COGCC with concerns about noise and vibrations.	A COGCC inspector responded to the complaint. The inspector reviewed third party sound record which were provided by the operator. The records did not identify violations of COGCC noise regulations.
