

Appendix C: Construction Site Stabilization Certification

I, _____, hereby certify that, to the best of my knowledge, belief, and opinion, the project site, _____, is stabilized.

In addition, I certify the following:

The site has uniform vegetative cover of at least 70%, when compared to pre-disturbance levels, in accordance with Adams County Regulations. Such cover is capable of adequately controlling soil erosion.

Proper installation of all approved, permanent post-construction stormwater quality BMPs.

Stockpiles of soil, construction material/debris, construction equipment, etc. have been removed from the project site.

Streets, parking lots and other surrounding paved surfaces are clean and free of any sediment or debris.

Sediment, debris and pollutants, caused by the construction activity, have been removed from Adams County's MS4 and all properties surrounding the project site.

All damaged public infrastructure caused by the construction activity has been restored.

Documentation, as required by Section 9-05-10 Permit Closeout Notification, has been provided.
