The development proposed in this application is for the construction of a new approximately 11,000 sf building to replace the existing buildings on this site.

The purpose of this application is to obtain specific information on the development requirements for this site with the construction of a new 11,000 sf structure. Iron Woman is exploring the option to move their headquarters to Adams County based on the feasibility of the development of this site to accommodate such operations.

The current operations include trucking transport, mechanic’s shop, heavy equipment storage, and material storage (specifically for a long-term contract with Denver Water). At this time, 25 employees work on site during the day, traffic generated with the trucking transport is approximately 40 trips per day. If Iron Woman was to move their headquarters to this location, the potential increase in onsite employees will be 35 for a total of approximately 60 employees. The trucking transport traffic will not increase. Current operations are conducted Monday-Friday between 7am-7pm.

Applicant wishes to rezone and replat 4 A-1 parcels to I-2.
